

# HP X24c Gaming Monitor

## Get wrapped up in gaming

Escape to new worlds with the 1500R curved monitor that delivers an immersive FHD experience<sup>1</sup>. The 144Hz refresh rate<sup>2</sup> reduces blur by displaying images 2x faster than other monitors<sup>3</sup>. Now you can say goodbye to lags and hello to smoother gaming with AMD FreeSync™ Premium technology<sup>4</sup>. Plus, adjust the monitor and avoid any back or neck strain.

### Action with a curve

Escape to new worlds—the 1500R curvature pulls the corners of the display closer to you, delivering an immersive FHD experience<sup>1</sup>.

### Fast strikes. Smooth moves

React quicker. The 144Hz refresh rate<sup>2</sup> reduces blur by displaying images 2x faster than other monitors<sup>3</sup>. Say goodbye to lags and hello to smooth, tear free gaming with AMD FreeSync™ Premium technology<sup>4</sup>.

### A new level of comfort

Play comfortably by adjusting the monitor to the perfect position for you. And, game for as long as you want without any back or neck strain.

<sup>1</sup> Full high-definition (FHD) content required to view FHD images.

<sup>2</sup> All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

<sup>3</sup> 2x faster than traditional 60Hz monitors.

<sup>4</sup> FreeSync™ is only available when it is connected on DisplayPort or HDMI. FreeSync is an AMD® technology is enabled on FHD or QHD displays and is designed to eliminate stuttering and/or tearing in games and videos by locking a display's refresh rate to the frame rate of the graphics card. AMD Radeon Graphics and/or AMD A-Series APU-compliant monitors with DisplayPort/HDMI Adaptive-Sync required. AMD 15.11 Crimson driver (or newer) required to support FreeSync over HDMI. Adaptive refresh rates vary by monitor. More information is available at [www.amd.com/freesync](http://www.amd.com/freesync).

## Featuring

### **144Hz refresh rate**

Get smooth gaming, sharper objects, and cleaner details with a gaming display that refreshes frames 144 times a second – over twice the refresh rate of standard displays.

### **AMD® FreeSync™ Premium technology**

See and feel the difference of fluid, responsive gameplay. By synchronizing the refresh rate with your GPU, AMD® FreeSync™ makes display stutter, input lag, and screen tears ancient history.

### **Height adjustment stand**

Gas piston design allows 100mm of smooth, precise height adjustment so your display is always in the most comfortable position, no matter who is viewing it.
