HP X24c Gaming Monitor

Get wrapped up in gaming

Escape to new worlds with the 1500R curved monitor that delivers an immersive FHD experience 1. The 144Hz refresh rate² reduces blur by displaying images 2x faster than other monitors³. Now you can say goodbye to lags and hello to smoother gaming with AMD FreeSync™ Premium technology⁴. Plus, adjust the monitor and avoid any back or neck

Action with a curve

Escape to new worlds—the 1500R curvature pulls the corners of the display closer to you, delivering an immersive FHD experience¹.

Fast strikes. Smooth moves

React guicker. The 144Hz refresh rate² reduces blur by displaying images 2x faster than other monitors³. Say goodbye to lags and hello to smooth, tear free gaming with AMD FreeSync™ Premium technology⁴.

A new level of comfort

Play comfortably by adjusting the monitor to the perfect position for you. And, game for as long as you want without any back or neck strain.

¹ Full high-definition (FHD) content required to view FHD images.
² All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.
³ 2x faster than traditional 60Hz monitors.
⁴ FreeSync™ is only available when it is connected on DisplayPort or HDMI. FreeSync is an AMD® technology is enabled on FHD or QHD displays and is designed to eliminate stuttering and/or tearing in games and videos by locking a display's refresh rate to the frame rate of the graphics card. AMD Radeon Graphics and/or AMD A-Series APU-compliant monitors with DisplayPort/HDMI Adaptive-Sync required. AMD 15.11 Crimson driver (or newer) required to support FreeSync over HDMI. Adaptive refresh rates vary by monitor. More information is available at www.amd.com/freesync.

HP X24c Gaming Monitor

Featuring

144Hz refresh rate

Get smooth gaming, sharper objects, and cleaner details with a gaming display that refreshes frames 144 times a second – over twice the refresh rate of standard displays.

AMD® FreeSync™ Premium technology

See and feel the difference of fluid, responsive gameplay. By synchronizing the refresh rate with your GPU, AMD® FreeSync™ makes display stutter, input lag, and screen tears ancient history.

Height adjustment stand

Gas piston design allows 100mm of smooth, precise height adjustment so your display is always in the most comfortable position, no matter who is viewing it.
