Unlock goodness of ingredients*

With dual-pulse pressure technology

New Philips electric pressure cooker with innovative dual-pulse pressure technology and iSpiral IH technology to unlock flavors and nutrients, helping you to cook tasty and nutritious meals easily!

New technologies to unlock goodness of ingredients

- Dual pulse pressure tech to unlock flavors and nutrients
- iSpiral IH forms vortex and improves heat uniformity
- Flame pot with designed pattern to make heating even

Smart cooking for more convenience and taste

- 19 automatic programs to help you create easy homemade food
- Add Ingredients function for more nutritious and tasty food
- Sauce thickening for richer sauces and tastier dishes
- Reduced waiting time - lid can be opened right after cooking
- MyFavorite stores up to 3 customized cooking programs

Unique design

- Modern fully hidden control panel
- No need to worry if there's pressure inside the pot

Highlights

Dual pulse pressure tech

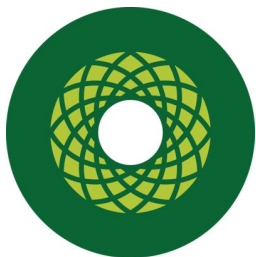

This new electric pressure cooker applies 2 phases of pulse pressure cooking: extra flavors and nutrients are firstly unlocked by the dynamic pulsed high-pressure technology, while they are enhanced by the boiling effect brought by the pulse micro pressure.

iSpiral IH technology

The high power iSpiral induction heating technology helps to create a strong vortex during cooking, which will greatly improves heat uniformity and enhance taste.

Unique Flame Pot

Extra thick stainless steel pot with quality non-stick coating and flame pattern design at the bottom to increase heat reflection, enhancing taste. There're also handles for easy carrying.

19 auto cooking programs

19 automatic cooking programs, including 5 unique roasting/baking programs and 1 slow cooking program, which enable you to make various homemade dishes easily.

Add Ingredients during cooking

Press the Add Ingredients During Cooking button at any time during the cooking process to add or stir ingredients, making cooking easier and food more nutritious and delicious.

Sauce thickening function

After releasing pressure, you can press the Sauce Thickening button for high-power boiling to get richer sauces and tastier dishes.

TurboSilent technology

Thanks to the TurboSilent pressure release technology, you don't need to discharge the pressure manually or wait for the pressure to drop naturally. The lid can be opened as soon as cooking is finished, giving you great food without the wait! It's so quick and easy!

My Favourite

You can save up to 3 customized cooking programs, so by pressing the shortcut button you will be able to repeat your favourite dishes easily.

Modern fully hidden panel

Hi-tech fully hidden panel: all programs light up on the panel once the cooker is powered up.

Realtime pressure display

Real-time pressure level is shown on the display, so there's no need to worry if there's pressure inside and guess if it's safe to open the lid.
