## WMF Lono Glass Toaster

### Showtime for your toast – fully automatic and a unique design

With the WMF Lono glass toaster, a very special highlight dominates the breakfast table. Simply insert the slice of bread, press on the button, sit back and relax. The bread is automatically lowered into the toaster and then raised back up again – and thanks to the built-in bread centring function it is perfectly positioned to ensure even browning results. And all of this right before the eyes of the user, because the removable glass window offers a fascinating view of the entire process. Seven variable browning levels, illuminated function keys (warm/re-toast, defrost, bagel and stop functions), a separate stainless steel roll attachment and a removable crumb tray conveniently round off the breakfast experience.

### Product highlights:

- **Motorised toast holder:** Before and after toasting, the holder automatically moves into the perfect position – for toasting or for removing the toast.
- **Large glass viewing window:** offers a fascinating view of the toasting process. Inner glass plates can be simply removed for cleaning.
- **Illuminated function buttons:** convenient settings for warm/re-toast, defrost, bagel and stop functions.
- **7 different browning levels:** variable browning levels from light to dark brown, depending on personal taste.
- **Built-in bread centring:** for perfect, even browning results.
- **Separate roll attachment:** made of high-quality stainless steel, for warming up rolls, croissants and other pastries.
- **Removable crumb tray:** practical crumb tray for extremely easy cleaning.
- **High-quality casing:** made of elegant, matt Cromargan®, the toaster integrates harmoniously into every setting.
