

MagPro™ Elite Magnetic Privacy Screen Filter for MacBook Pro 16"

Privacy begins on screen.

K52200WW

Product Description

The MagPro™ Elite Magnetic Privacy Screen Filter for MacBook Pro 16" seamlessly attaches to the laptop's magnetic frame, allowing the MacBook Pro to close completely and enter sleep mode — no need to remove. Screen protects monitor from scratches and damage, while providing privacy by limiting viewing angle to +/- 30°. Reduces harmful blue light by up to 22%, diminishes glare and improves clarity. Reversible screen offers matte or glossy viewing options — magnets make it easy to detach and reattach. Includes cleaning cloth and screen holder to protect from scratches while not in use.

Features

- Privacy screen seamlessly and conveniently attaches to the MacBook Pro frame with magnets. This avoids potentially damaging adhesives from being used and eliminates any setup process.
- Screen's magnets help keep MacBook Pro closed so it can enter — and stay in — sleep mode. No need to remove.
- Limited viewing angle narrows the field of vision to +/- 30 degrees, helping keep the information on your screen private and reducing the chances of a visual data breach in the office or in public.
- Blue light reduction filters out harmful rays by up to 22%, easing eye strain and reducing the chances of blue light interrupting natural sleep patterns.
- Low reflective coating reduces glare from outside light sources for improved viewing clarity.
- With reversible viewing options, one side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the monitor. Magnets make it easy to detach and reattach.
