HX2421/02

Designed to clean better than a manual toothbrush*

Offers you superior plaque removal at the push of a button

Provides a superior clean

- Better plaque removal

Optimize your brushing

- Philips Sonicare's advanced sonic technology
- Angled brush head for better access to back teeth

Extra gentleness

- Sensitive Mode for extra gentleness on teeth and gums
- Designed to remove plaque while being gentle on gums

Highlights

Helps reduce plaque

Provides better plaque removal and access to back teeth; brushing twice a day every day with this brush can help reduce plaque.

The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Better access to back teeth

Slim, angled brush head provides better access to back teeth and hard-to-reach places

Clean and Sensitive Modes

Clean mode provides an exceptional daily clean, while Sensitive mode is designed for gentle cleaning of teeth and gums.

Better design for better clean

The contoured bristles fit the shape of your teeth, so you can easily and gently clean those hard-to-reach areas.
