Extended retailer text

Do you like skyping or vlogging? Or do you have a lot of international clients or colleagues with whom you have important online business calls? Then you need a webcam that makes you look your best. With the eLight Full HD 1080p Webcam you get high quality images and clear sound.

Plug & Go

Want to record your vlog or create a video? Simply install the recording software for widescreen video which is provided with the camera. You are able to upload videos to YouTube with only one click of the mouse, saving you precious time.

Just want to Skype or chat? Plug the webcam in your PC or laptop and it is ready to use. With the integrated clamping system the webcam can be attached to your notebook screen, flat panel display or just placed on any flat surface.

LED lights

Good lighting makes a big difference in both skyping and recording. With the LED lights of the Full HD Webcam, bad lighting is no longer an issue. The powerful integrated LED lights ensure high image quality, even when you don't have enough daylight.

High performance

The High performance USB 2.0 webcam can produce both 2 megapixel video resolution and up to 8,3 megapixel photo resolution. This gives the best video quality for YouTube and makes it possible to put Full HD 1080p widescreen films online, in the best quality for e.g. Youtube. Besides this, the internal microphone guarantees clear sound so whether you are producing a video for upload or chatting with friends, you're always clear to hear.
