

PHILIPS

Air Purifier

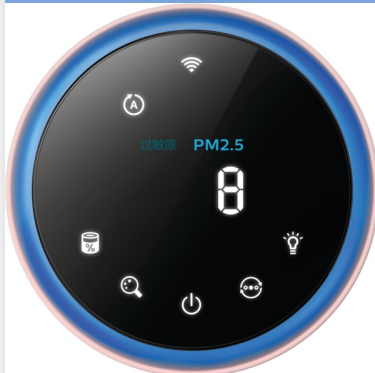

Series 2000i

Remove 99.9% particles@3nm

PM2.5 & allergens display

Up to 43 m²

Auto, Sleep mode & app

AC2936/00

Healthier air, always

See and breathe 99.9% pollutant-free air

Effortless monitor and control

- Simple 4-color display ring for easy monitoring
- Visible reassurance on PM2.5 & allergens
- Smart filter status indicator
- Track, monitor and control with your smartphone app

Innovative design & ultra quiet

- Gentle mode tailored for bedroom use
- Ultra-quiet operation

Intelligent auto purification

- Auto ambient light control
- Intelligent sensing and auto purification

Superior air purification performance

- Superior filtration performance
- 3D air circulation for fast and efficient purification

Highlights

Air quality display

Knowing real-time air quality in one glance: showing numerical pm2.5 feedback and allergen level on screen that gives you peace of mind in the easiest way.

Auto ambient light control

Smart auto ambient light control, adjust light automatically according to room environment, take care of you and your family in the most gentle way.

Gentle mode

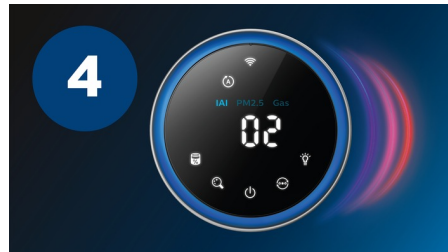

If you are seeking for some quiet and quality time in the bedroom, especially during daytime, gentle mode is your best choice. Feel a natural breeze when reading a book, taking a nap with your baby or even meditating. It only takes one glance before you know you are breathing healthy air.

Intelligent auto purification

Smart sensing technology senses in real time and automatically removes all 3 major threats of indoor air: particles, harmful gases and indoor allergens. Powered by professional grade sensor, it automatically scan pollutants in the air 60,000 times per minute, detects and reacts to any pollution event in real time.

Air quality in 4 colors

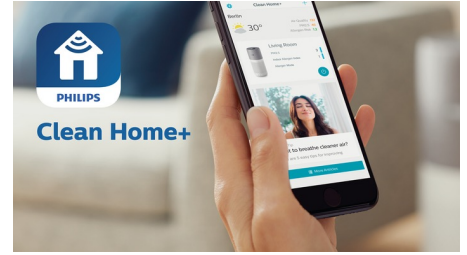

The ambient light ring on top of the product provides an additional visual cue ranging from blue (good) to red (poor) to present the indoor air quality.

Smart filter status indicator

Detect actual amount of pollutants filtered, and calculate filter lifetime. You can easily check current filter status on screen for effortless maintenance.

Track and control by app

Using the CleanHome+ app you can control your air purifier anywhere, anytime. Check the air quality in the app to get reassurance wherever you are, and to compare your indoor air quality with the outdoor air quality.

Superior filtration

Powered by the upgraded VitaShield technology, the air purifier effectively removes 99.9% of particles as small as 0.003um (800 times smaller than PM2.5), including PM2.5, viruses, bacteria, pollen, dust and pet dander.* It makes sure you breathe healthy air even during heavy pollution season.

Ultra quiet operation

In sleep mode, display lights are dimmed and the purifier operates in near silence (as low as 30db) for clean air while you sleep — certificated by Quietmark.

Specifications

Performance

Room size: 43 m²
CADR (Particle): 360 m³/h
CADR (Formaldehyde): 220 m³/h
Ultra fine particle removal: as small as 3 nm
Filters out PM2.5: 99.9 %
Filters out H1N1 Virus: 99.9 %
Filters out bacteria: 99.9 %
Energy Efficiency rate: High
Recommended filter life time: 12 months
Sound Power: 30-66 dB(A)

Features

VitaShield
AeraSense technology
Air Quality feedback: Numerical
Gas sensor
PM2.5 sensor
Modes: Auto, turbo, sleep, gentle
Aerodynamic design: 360 degree inlet
Healthy air lock & Alert
Light control: On/Off
Motor: DC

Design and finishing

Color(s): Pink/ White
Color of control panel: Black
Control panel type: Touch
Material of main body: Plastic
Material of deco ring: Plastic

Technical specifications

Voltage: 220 V
Frequency: 50 Hz
Cord length: 1.6 m
Power: 43 W

Weight and dimensions

Weight of product: 5.8 kg
Weight incl. packaging: 7.5 kg
Dimension of product (LxWxH): 585x274x274
Dimension of packaging (LxWxH):
320x320x630 mm

Logistic data

12NC code: 883493600710
EAN F-box: 6923410700848

Replacement

Integrated filter: FY2122/00

Country of origin

Made in: China

Sustainability

Stand-by power consumption: 2 W

Service

2-year worldwide guarantee

Function

Light sensor
