- StyleMat provides support for final crisp touch
- Most powerful steam up to 30 g/min for faster results

PHILIPS

Highlights

PureSteam technology

Other steamers are easy to lose steam performance over time due to scale build-up. Thanks to the innovative PureSteam technology with quick calc release, the scale does not stick to the heater and is easy to remove. It is so effective that the steam is powerful for years to come.

Quick calc release

Quick calc release is the easiest way to remove scale from your steamer. Together with PureSteam technology, quick calc release guarantees consistently powerful steam for years to come.

jackets and coats. It can also help to remove dirt and pills.

Continuous steam

Thanks to the electric pump, you do not need to pump manually. Just hold the trigger pressed and steam comes out continuously.

2-in-1 function

Steam your clothes vertically without using an ironing board, or give them a finishing crisp touch by steaming horizontally on any straight surface around you. Due to its unique internal design, this steamer will generate powerful continuous steam even when horizontal. Especially useful for tricky areas, like collars or cuffs.

XL watertank

The 200-ml water tank enables steaming up to 3 garments without refill. Enough to touch up a complete outfit and get ready in no time.

SmartFlow heated plate

The SmartFlow heated plate prevents condensation on your garments while still being 100% safe on all your clothes and even delicates.

Brush accessory

The brush attachment opens the fabric fibres and enables better steam penetration. It is especially good for thicker garments like

Safe on all garments

The steamer is safe to use on all fabrics. It is a great solution for delicate fabrics like silk and cashmere.
