AEG

6000 Gas Hob 60 cm

HGB64420YM

Precise power levels. Perfect results
Set precise heat levels on the hob with StepPower. And experience outstanding accuracy. The hob's controls can be set between 1 and 9. Meaning there's no need to bend down to see the flame. And advanced technology delivers exact, consistent heat to pots and pans.

Product Benefits & Features

StepPower. For precise heat
Experience precision on the hob with StepPower controls. And produce consistently delicious dishes. The heat can be set at levels 1 to 9, with each ascending increment offering more power. Because exact settings mean outstanding results.

- Steel capped control knobs
- Rotary controls
- Not fitted with Thermocouples therefore unsuitable for flats and other multi-occupancy dwellings.

New generation of Burners
The design of the speed burners in this AEG gas hob allows the flame to directly target the bottom of the pan, providing quicker heat and greater efficiency. These high speed burners get you cooking up to 20% faster.

Powerful heat, with the multi-crown burner
Experience fuller flavour in your favourite dishes with the powerful, multi-crown gas burner. It generates intense, direct heat – ideal for searing seafood and locking in mouth-watering stir-fry flavours. Wok cooking mastered.

Cast iron pan support
Add a professional look to your kitchen, with cast iron grid supports on the hob. The sturdy, premium material is hard-wearing, and can easily be wiped down with a damp cloth.

Effortless, integrated ignition
Gain quick, effort-free access to powerful heat with integrated ignition. With no need for matches or lighter. Each burner's flame can be sparked at the twist of a dial. So you can get cooking quicker.
