

ThinkPad TRACKPOINT KEYBOARD II

ICONIC THINKPAD TYPING JUST GOT COMPACT.

The ThinkPad® TrackPoint II Keyboard translates the ThinkPad notebook's iconic typing experience into a stand-alone device. True to form, it features the same dish-shaped ergonomic keycaps for comfort, as well as an integrated TrackPoint for easy navigation in tight spaces without a mouse. It's versatile and reliable Bluetooth®/Wireless Nano USB Dongle allows up to 2 devices to connect, and supports both Android™ and Windows. Even the visually impaired can enjoy the TrackPoint II, thanks to its 6-point entry support.

WHY YOU NEED THE THINKPAD TRACKPOINT KEYBOARD II

Same Experience, Less Space

The TrackPoint II uses the same keycaps, typing distance, actuation force, scissor switches, tactile feedback, and mouse-free TrackPoint as the ThinkPad notebooks, but repackages it in a compact form with next-level technology such as 6-point entry for the visually impaired.

Cutting-Edge Connectivity

The TrackPoint II uses the latest, most stable 2.4 GHz wireless and Bluetooth® 5 technology with Swift Pair support allowing users to quickly switch between two connected devices, whether they're running Android™ or Windows.

Impressive Battery Life

Most batteries would struggle to support the amount of technology packed into the TrackPoint II. That's why we developed a unique solution that can last up to 2 months on a single charge. Better yet, just 15 minutes of charging via USB-C delivers up to a week of life.

ThinkPad TRACKPOINT KEYBOARD II
