

# HP Mini-in-One 24 Display

The display engineered for your Mini.<sup>1</sup>

Maximize your workspace with our first Mini-in-One display that fully encloses a USFF PC and is purpose-built to seamlessly connect, contain, secure, and power your Mini<sup>2</sup>—from this generation to the next. Multi-task like a pro in Full HD resolution, and add your USB devices at the display.

## Stylish, adaptable design

- Take your clean desk to another level with an elegant design and simple slide-in mechanism that connects your Mini<sup>2</sup> behind the screen through a USB-C™ cable and houses both discreetly out of view. Then power on your solution through the display.

## Security for your Mini, privacy for you

- Reduce the threat of tampering with the built-in, fully-enclosed compartment and panels that secure your Mini.<sup>2</sup> Work without worry that you're being watched with the integrated HP Privacy Camera shutter that blocks your webcam feed when not in use.

## Expansive HP Mini compatibility and device connectivity

- Effortlessly support your evolving business with separate display and PC lifecycles with our first display that powers a USFF PC with up to 65 watts. Add an HP Pro or Elite Desktop Mini<sup>2</sup> through a USB-C™ cable and USB devices through 6 USB ports.

## Featuring

- See more of your work at one time on the 23.8" diagonal Full HD screen with 3-sided micro-edge bezels. Connect additional displays through DisplayPort™ for a virtually seamless, panoramic multi-display setup.
- Work comfortably with adjustable settings that include tilt, height, swivel, and pivot rotation for portrait or landscape views—even with the Mini installed.
- Support collaboration and web meetings without cluttering your desk with a built-in Full HD webcam, universal audio jack for your headset, and integrated stereo speakers.
- Manage your display and make it work for you. HP Display Assistant allows you to quickly resize screen partitions to work in separate regions of the screen and helps deter theft by dimming a display that's disconnected without approval.
- Energy efficiency is built into our low-halogen, ENERGY STAR® certified, EPEAT® Gold registered design that meets TCO Certified Edge with 85% post-consumer recycled plastics.
- Rest assured with a three-year standard limited warranty. Extend protection with an optional HP Care service.

## HP Mini-in-One 24 Display Specifications Table

Display type	IPS with LED backlight
Brightness	250 nits <sup>1</sup>
Contrast ratio	1000:1 static <sup>1</sup>
