

# OMEN Vector Wireless Mouse

## Lose the wire and nothing else

Let your mouse run free with wireless lagless latency. The world's fastest USB-C® charging gaming mouse with up to 180 hours of battery life.<sup>(2)</sup> We swear it's wireless.

### All the wirepower without the wire

With 1ms polling rate Warp Wireless Technology, lose the lag and the wire without losing any of the performance.<sup>1</sup>

### Turbo-recharge

30 seconds will get you an hour of battery life, just in case you forget to charge in your sleep.<sup>2</sup>

### Every battery-life is a saga

Nothing can compete with up to 180 hours of battery life, not even the measly 168 hour week.<sup>3</sup>

<sup>1</sup> All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

<sup>2</sup> Based on HP internal testing. Compared to all gaming mice with a USB-C interface, up to 16,000dpi with light off during charging and playing currently in the market as of 09/15/2020.

<sup>3</sup> Actual battery life will vary with use and environmental conditions, and will naturally decrease with time and usage.

## Omadused

### **For your sensitive side**

Lock on to accurate tracking with esports-grade PixArt PAW3335 wireless sensor supports up to 16,000 dpi.

### **At the speed of instinct**

By the time you max out the lifespan of the Omron switches of 50 million clicks, your lightning-fast response time might be worshiped in some countries.<sup>1</sup>

### **My mouse, my rules**

You've got options with 16.8m colors, 6 programmable buttons, and 100-16,000 dpi in the OMEN Command Center.

### **It holds your hand**

Ergonomically engineered to mold to your hand and stay there with its textured rubber grip, you feel me?

### **Mouse trap door**

There's a super secret, well not anymore, compartment for your USB receiver on the bottom of the mouse.

### **Raid with a braid**

This burly and braided beauty will get you out of any tangle or snag.
