for all

Lenovo

From basic admin to extensive productivity tasks, this product can be configured to meet a wide variety of user expectations, whilst reducing the need for bulky desktops. The depth of this device has been reduced, saving workspace and enabling more space for cable routing at the rear of the device. Subjected to more than 100 performance and reliability tests, it has unique features like optional dust filters and a cable lock to secure peripherals.

### REASONS TO BUY

For employees working with data or graphics, you can configure up to 64GB of DDR4 memory which will boost multitasking performance, NVIDIA GeForce® GT 730 graphics, up to 2x fast SSD storage drives, and the latest AMD Ryzen™ Pro processor.

Connect to printers and other devices with 8x USB ports, plus dual-band WiFi that can operate at the same speed as an ethernet cable - saving networking and cabling costs.

This device is highly energy-efficient, with Energy Star® and EPEAT® silver certifications, ensuring you save money and reduce environmental impact.
