

## TS-231P3-2G

|                                          |                                                                                            |
|------------------------------------------|--------------------------------------------------------------------------------------------|
| Processor                                | AnnapurnaLabs, an Amazon company Alpine AL314, 4-core, 1.7GHz                              |
| Processorarkitektur                      | 32-bitars ARM                                                                              |
| Flyttalsenhet                            | Yes                                                                                        |
| Krypteringsmotor                         | Yes                                                                                        |
| Systemminne                              | 2GB SO-DIMM DDR3                                                                           |
| Maximalt minne                           | 8GB DDR3                                                                                   |
| Minneskortsplats                         | 1 st. SO-DIMM DDR3                                                                         |
| Flashminne                               | 512 MB (operativsystemskydd med flervalsstart)                                             |
| Enhetsfack                               | 2 st. 3,5-tums SATA 6 GB/s, 3 GB/s                                                         |
| Hårddiskkompatibilitet                   | 3,5-tumsfack:<br>3,5-tums SATA-hårddiskar<br>2,5-tums SATA-hårddiskar<br>2,5-tums SATA SSD |
| Utbytbar under drift (hot swap)          | Yes                                                                                        |
| Stöd för SSD-cache-acceleration          | Yes                                                                                        |
| Gigabit Ethernet-port (RJ45)             | 1                                                                                          |
| 2,5 Gigabit Ethernet-port (2,5G/1G/100M) | 1                                                                                          |
| Jumboram                                 | Yes                                                                                        |
| USB 3.2 Gen 1-port                       | 3                                                                                          |
| Formfaktor                               | Golvmodell                                                                                 |
| LED-indikatorer                          | Ström, status, LAN, USB, hårddisk 1-4                                                      |
| Knappar                                  | Ström, återställning, automatisk kopiering med USB                                         |
| Mått (H x B x D)                         | 161 × 102 × 219 mm                                                                         |

|                                             |                                                                  |
|---------------------------------------------|------------------------------------------------------------------|
| Vikt (netto)                                | 1,35 kg                                                          |
| Vikt (brutto)                               | 2,39 kg                                                          |
| Drifttemperatur                             | 0 - 40 °C                                                        |
| Relativ luftfuktighet                       | 5-95 % rel. luftfukt. (icke-kondenserande); våttermometer: 27 °C |
| Nätaggregat                                 | 90 W nätadapter, 100-240 V                                       |
| Effektförbrukning:<br>Hårddiskar i viloläge | 8,46 W                                                           |
| Effektförbrukning: Driftläge,<br>typiskt    | 15,6 W                                                           |
| Fläkt                                       | 1 st. 120 mm, 12 VDC                                             |
| Ljudnivå                                    | 19,2 db(A)                                                       |
| Systemvarning                               | Summer                                                           |
| Kensington-säkerhetsplats                   | Yes                                                              |
| Max. antal samtidiga<br>anslutningar (CIFS) | 400                                                              |

Note: Use only QNAP memory modules to maintain system performance and stability. For NAS devices with more than one memory slot, use QNAP modules with identical specifications. Warning: Using unsupported modules may degrade performance, cause errors, or prevent the operating system from starting.

\* Sound Level Test Environment: Refer to ISO 7779; Maximum HDD loaded; Bystander Position; Average data from 1 meter in front of operating NAS.

Designs and specifications are subject to change without notice.
