H65F Series 4K UHD Android Smart TV

Model # 65H6500F

The Smart Upgrade

Today's TVs are simply more capable—and more simple. The Hisense H65 4K Smart TV is a perfect example. It's the upgrade that allows you to set the bar higher without complicating your entertainment.

The H65 fits right into your ever-smarter home. With Android TV, you can tap premium content from Netflix, YouTube, TikiLive, FandangoNow, or listen to your favorite music from Pandora and iHeartRadio with built-in apps—all at the press of a button.

Or, simply say the word to have the already built-in Google Assistant share your vacation photos, download more apps from the Google Play store, and check who's at the front door. Plus, built-in Bluetooth makes it easy to connect your favorite audio accessories to the biggest screen in your home.

The H65 is as smooth as it is smart, thanks to advanced technologies inside and out. Colors burst off the screen in amazing 4K resolution. And action-packed movies and games don't miss a beat thanks to advanced picture technologies like Motion Rate processing.

For a 4K UHD picture plus incredible content and convenience, the smart money is on the H65.

4K UHD

4K UHD delivers more than 4x the resolution of a regular 1080p high-definition screen. Along with over 8 million pixels, inside you'll find a powerful LED backlight at work creating a sharper, more colorful picture.

Google Assistant

Built-in Google Assistant™ turns your TV into the ultimate conversation piece. With the touch of your remote and a simple voice command, you can take control of your smart home*. Turn on the TV and lights. Set a reminder or adjust the thermostat. Check your calendar and the kiddos bedroom. Discover and play your favorite songs or shows. Or get answers about weather, traffic, sports scores, and that show you're watching. Just say the word. The options are limitless with Google-compatible devices.

DTS Studio Sound

Enjoy full and rich sound by DTS Studio Sound's audio technology.

Android TV

With Android TV, you can enjoy the best Android has to offer on the biggest screen in your home. Download top Google Play™ apps and games. Stream more than 500,000 shows, movies, live sports and news from popular channels. Or gather around to watch the hottest videos from YouTube or 1,000+ Chromecast capable apps. What you want. How you want it. It's all on your H65F, on your terms.

Motion Rate

Blink and you missed it? Think again. The H65 is built with motion in mind. Motion Rate 120 image processing makes it so you can keep your eye on the ball, chase scene, or multi-player battle. Gamers see lag times drop and viewers see all the key moments in live sports or action movies. Captivating scenes grab your attention – and keep it with smooth motion.

Bluetooth

The H65 is music to your ears—and eyes—thanks to built-in Bluetooth™ connectivity. This universal, invisible technology expands your entertainment options by wirelessly connecting a compatible soundbar, speakers or stereo components to your TV. From movie soundtracks to your favorite playlists, your TV can amplify every experience while eliminating unsightly cords.
