

Ergo-Q 260

The Ergo-Q 260 laptop stand combines all the features which make a laptop stand perfect.

Quick setup.

The Ergo-Q 260 can be easily unfolded and set up in a few seconds. Simply insert the round connector into one of the five slots. The integrated document holder folds out effortlessly so you can easily insert your laptop. The stable stand and the anti-slip feet on the underside promise a firm working setup for your laptop on any surface.

Ergonomic background

Using a notebook stand in combination with an external keyboard and mouse increases productivity by 17%. It also significantly improves sitting posture. Neck strain is reduced by 32% and comfort is improved by 21% (Lindblad, 2002). The forearms are also in a more neutral position. Physical complaints are substantially reduced (Boersma, 2002).

We advise working no longer than two hours a day with a laptop unless it is combined with a notebook stand with an external keyboard and mouse.
