# Highlights

## Protective SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 2000 micro-tech beads per square millimetre, it reduces friction on skin by 25%\*, to minimise irritation.

## SteelPrecision blades

Powerful yet gentle, the 45 self-sharpening SteelPrecision blades on this Philips shaver complete up to 90,000 cutting actions per minute, cutting more hair per stroke\*\* for a clean, comfortable finish.

## Motion Control sensor

An electric shaver motion-sensing technology tracks how you shave and guides you to a more efficient technique. After just three shaves, the majority of men achieved a better shaving technique for fewer passes\*\*\*.

## Personalisation via app

Pair your Philips electric shaver to the GroomTribe app and prepare to master your technique. Just track your progress and personalise your routine to achieve a shave that's both close and kind.

## Power Adapt sensor

The electric shaver has an intelligent facial-hair sensor that reads hair density 125 times per second. The technology auto-adapts cutting power for an effortless and gentle shave.

## 360 D Flexing heads

Designed to follow the contours of your face, this Philips electric shaver has fully flexible heads that turn 360° for a thorough and comfortable shave.

## Hair-Guide precision heads

This new-shape precision shaver is enhanced with hair-guiding channels for optimal cutting and skin comfort.

## Cable-free Quick Clean Pod

10 x more effective than cleaning with water\*\*\*\*, the powerful cleaning pod thoroughly cleans and lubricates your shaver in just 1 minute. Using it helps maintain shaver performance and increase hygiene.

## Shave wet or dry

A wet and dry shaver that adapts to your preference. Choose a convenient dry shave, or pair with your favourite foam or gel for a refreshing wet shave.
