

ideacentre AIO 3i

DESIGNED TO PERFORM & IMPRESS.

For real slick performance and truly stylish engineering, take a look at the Lenovo™ IdeaCentre™ AIO 3i. It's powered by up to 10th generation Intel® Core™ i7 processor, DDR4 memory, and a solid-state storage drive, so can handle any task. With its streamlined stand and near-borderless display, it saves on desk space, too. Available with optional touchscreen and discrete graphics.

WHY YOU SHOULD BUY LENOVO IDEACENTRE AIO 3i

Takes everything in its stride

The IdeaCentre AIO 3i runs seamlessly, no matter the task or workload. 10th generation Intel® Core™ processor, DDR4 memory, and a solid-state drive enable it to zip through everything. You also have the option of 1 TB of disk space and discrete graphics. For your PC peripherals, such as a mouse and keyboard, you will be glad to know that the IdeaCentre AIO 3i has plenty ports. In addition to USB 2.0 and 3.0 ports, it has a 3-in-1 card reader and HDMI™-Out, should you need a second monitor.

Less, the new more

The FHD display delivers an exceptional, almost borderless viewing experience—even from wide angles. Just 9.5 mm at their thinnest, the narrow bezels deliver a huge 90% screen-to-body ratio, for more screen and less distraction. By going for a touchscreen, you and your family can use the IdeaCentre AIO 3i more intuitively. It's a breeze to click or drag files directly on the screen, for instance. And for the younger ones, opening apps, moving things around, and looking at photos is way more fun.

Engineered for the modern home

For all your home computing needs, from work to downtime and everything in between, there's the IdeaCentre AIO 3i. With its elegant stand and base, this all-in-one will also save you much-needed desk space—and brighten up any room. A heap of cables connected to a desktop PC can look very messy. Not so with the IdeaCentre AIO 3i. It has a cable collector conveniently built into the stand, so there's less clutter and more space for you to work (or play) with.

Totally flexible

Whether you need to work or kickback, you can tilt the stand on your IdeaCentre AIO 3i to the perfect angle. You can also adjust the screen with one hand, perfect for when there's an annoying light distracting your view. Your personal privacy matters. That's why each IdeaCentre AIO 3i is fitted with a TrueBlock Privacy Shutter. When you're finished with your webcam and wish to close it, just flick the button on the tip of your screen.

LENOVO SERVICES

Warranty Upgrades - On-site / In-Home Service

Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

Accidental Damage Protection

Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

Warranty Extensions (1-to-3 Years Total Duration)

This fixed-term, fixed-cost service helps accurately budget for PC expenses, protect your valuable investment and potentially lower the cost of ownership over time.

* Specification and configuration may vary by different platform and model.

* Example of Lenovo catalogue naming convention
