

THE POWER OF A BUSINESS PC IN A TABLET

Lenovo Tab Series is designed for mobile and frontline workers who need a lightweight tablet for basic productivity tasks.

Lenovo Tab M10

Smarter
technology
for all

Lenovo

This lightweight 10.1" Android tablet has an ultra-slim frame, maximizing the screen space for reviewing documents on the go. The 5MP rear camera can be used to capture photos, while there's also a front-facing 2MP conferencing camera. Compared with most smartphones, this tablet offers a better web conferencing experience because of the high-quality stereo speakers with Dolby Atmos® audio, enabling clearer hands-free audio and video calls.

REASONS TO BUY

Internal storage and a microSD card slot support offline edits and backups of large cloud-based files. In addition, users can easily connect to storage drives, printers and keyboards with the USB-C connector.

Stay connected even where WiFi is unavailable; the optional 4G WWAN module uses the cellular network for data connectivity.

Front-facing 2MP camera and stereo speakers with Dolby Atmos® for hands-free audio and video conferencing.
