HP Color LaserJet Enterprise M455dn

Small and mighty: HP's smallest Enterprise printer

HP's entry-level Enterprise-class color printer with speeds up to 28 ppm⁸ and strongest security. ¹

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds
