

MPN: MMHP218-32GB

32GB Memory Module LOAD REDUCED, DDR4 PC4 19200, 288PINS, DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

Specifications

Features	Buffered memory type	Unregistered (unbuffered)
	CAS latency	15
	Compatible products	Fujitsu
	Component for	Notebook
	ECC	Yes
	Internal memory	32 GB
	Internal memory type	DDR4 PC4 19200
	Memory clock speed	2400 MHz
	Memory form factor	288PINS DIMM
	Memory layout (modules x size)	1 x 32 GB
	Memory voltage	1.2 V
	Module configuration	2048M x 4
	Other features	Capacity
Chips organisation		2048*4
Number of pins		288
Vendor information	Brand Name	CoreParts
	Warranty	1 Year(s)
