Lead with power and performance

- Get highly responsive performance for your most demanding workloads and VR projects with up to a 125W 10th Gen Intel® Core™ processor², fast DDR4 memory, and optional high-end NVIDIA® GeForce® RTX 2080 SUPER™ graphics.³

Customize to fit your needs

- The HP EliteDesk 800 TWR has enormous expandability with five bays and four full-height slots—including one slot for full-length double-wide graphics.³ Plus, there are three additional M.2 slots and 11 USB ports.

Work with peace of mind

- Security features from HP work together to create an always-on, always-acting, resilient defense. From the BIOS to the browser, above and below the OS, these constantly evolving solutions help protect your PC from threats.

Built for the changing workplace

- The new chassis of the redesigned HP Elite 800 TWR is 9.6-percent smaller than the previous model. Its whisper quiet operation and powerful options like HP Extended Range Wireless LAN⁴ make it the right choice for today's smaller workspaces.
- Customize your display connection with a configurable rear I/O port featuring your choice of VGA, DisplayPort™, HDMI or USB-Type C® with DisplayPort™. Or, choose Thunderbolt™ 3 for high-speed file transfer.³
- Cover more ground and improve connectivity while on Wi-Fi® with HP Extended Range Wireless LAN that allows greater distance from transmission point and fast data throughput at shorter ranges.⁴
- HP Sure Admin, a modern BIOS management tool, eliminates the need for a password or BIOS configuration utility in the OS by creating a digital signature that allows IT administrators to securely manage BIOS settings over a network.⁵
- Firmware attacks can completely devastate your PC. Stay protected with HP Sure Start Gen5, the self-healing BIOS that automatically recovers itself from attacks or corruption.⁶
- Stop unwanted changes to security settings and help limit the spread of malware with HP Sure Run Gen3 which identifies, quarantines, and provides reporting on attackers trying to kill processes.⁷
- Help protect your PC from websites and read only Microsoft Office and PDF attachments with malware, ransomware, or viruses with hardware-enforced security from HP Sure Click.⁸
- HP Sure Recover Gen3 ensures fast, secure, and automated recovery from advanced malware attacks on your OS. Minimize downtime by recovering the OS over a LAN or Wi-Fi® network connection that you can pause or retry if the connection is lost.⁹
- Malware is evolving rapidly and traditional antivirus can't always recognize new attacks. Protect your PC against never-before-seen attacks with HP Sure Sense, which uses deep learning AI to provide exceptional protection against advanced malware.¹⁰
