# HP PageWide XL 5200 Printer series

### Gain efficiency with fast, easy, and cost-effective print/scan/copy production<sup>1</sup>

\*Product image may differ from actual product

#### Instant delivery of mono and color Help cut production costs up to 30%<sup>7</sup> Enhanced workflows, added efficiency printouts and security Print, scan, and copy in monochrome and color with a single HP-branded solution.<sup>1</sup> The market's largest 15-inch Respond to your customers' requests right away with print speeds up to 20 D/A1 pages/minute.<sup>2</sup> touchscreen<sup>5</sup> makes it easy to operate Gain broad control over your printing from the front and the back. costs with HP SmartTracker software. Reliable technical prints with HP Save time-manage folder styles, add job Up to 10 times lower energy consumption PageWide XL pigment inks-vivid color, separations, detect hidden layers before than comparable LED printers. crisp lines, fine detail beat LED. printing-with HP SmartStream. Eco-Carton replaces plastic cartridge-Gain productivity-one device delivers Scan on the fly, gain agile digitalization 80% reduction in plastic and 66% CO2e reduction<sup>9</sup>, free take back.<sup>10</sup> mixed sizes/paper types in 50% of the with live scan preview and contextual post-edit capabilities.<sup>1</sup> time, no mono/color collating.<sup>4</sup> World-class printer protection with HP Wolf Pro Security - stay ahead of evolving security threats.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds

#### **Messaging Footnotes**

Multifunction capabilities are available on the HP PaaeWide XL 5200 Multifunction Printer only.

<sup>2</sup> The HP PageWide XL 5200 Printer series delivers 20 CAD output D/A1 prints in 1 minute. Number of pages will vary depending on the print mode and application printed.
<sup>3</sup> Based on testing commissioned by HP and performed by Sogeti in September, 2020. Fine detail based on the number of line breaks found in 1.5 mm of line. On vertical 1 px C,M,Y,K lines. Printed on Oce 75 g plain paper

<sup>6</sup> Based on testing commissioned by HP and performed by Soget in September, 2020. Fine detail based on the number of line breaks found in L3 mm of line. On vertical 1 by C,M,Y,K lines, Frinted on Oce 75 g plain paper using equivalent fast/high-speed print modes. For output produced with an HP PageWide XL 8200 Printer and comparable printers from different manufacturers and that represent the majority market share of LED and UV-gel printers worldwide as of 2019 according to IDC. <sup>4</sup> Based on testing commissioned by HP and performed by Sogeti in September, 2020 comparing the HP PageWide XL 8200/5200 Printer series and a comparable competitive printer that represents the majority market share of LED printers worldwide as of 2019 according to IDC, by preparing and printing the job. Test performed by sending 3 copies of a 6-page file combining sizes A0, A1 and plain, coated paper types. Measuring time from clicking "send" button until last page out of the printer. Printed in fast/CAD equivalent print quality mode. <sup>5</sup> Based on comparison of published front panel specifications commissioned by HP and performed by Soget in September, 2020. Comparison of the HP PageWide XL portfolio and competitors that represent the majority market share of LED and Uk-de printers worldwide as of 2019 according to IDC.

<sup>6</sup> Based on comparison of published response worldwide as of 2019 according to IDC. <sup>6</sup> Based on comparison of published security specifications commissioned by HP and performed by Soget in September, 2020. Comparison of the HP PageWide XL portfolio and competitors that represent the majority market share of LED and UV-gel printers worldwide as of 2019 according to IDC. <sup>7</sup> Calculation based on total cost of ownership comparison and a comparable competitive printer that represents the majority market share of LED printers worldwide as of 2019 according to IDC. Comparison and further details available upon request. <sup>7</sup> Calculation based on total cost of ownership comparison and a comparable competitive printer that represents the majority market share of LED printers worldwide as of 2019 according to IDC. Analysis period of 1 year and assuming a production of 3,000 m<sup>2</sup>/month with a printing category distribution of: 70% lines, 20% low-density images, and 10% high-density images. Based on testing commissioned by HP and performed by Soget in
