Sustainability in action

React immediately, meet the tightest deadlines with the fastest large-format printer.[1] Gain efficiency, enhanced workflows. Protect your network with the world's most secure printer.[7] The full end-to-end solution enables up to 50% less costs.[8]

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds
