

## Capture device and live streaming video from HDMI to HDD/PC

### Features:

- ▶ Standalone 1080p video capture box, no need for PC, to record HD videos or gameplay from any HDMI video source (Xbox / PlayStation / Nintendo, family-video-discs/B-family-video-discs players, etc.) onto your USB flash drive and mobile hard disk
- ▶ Schedule Recording – Preset and record your favorite live family-video automatically when you are away from home
- ▶ VBS: scan the QR code and sync the recorded videos on PC to your mobile phone or tablet for playback via LAN
- ▶ Live network-video: works with 3rd party software such as OBS, XSplit to broadcast HD videos and gameplay
- ▶ Record live commentary or voice-over
- ▶ Free MP4 video editing software – MP4-Cloner
- ▶ Capture format: MP4 (H.264) / Video format (input) NTSC, PAL
- ▶ File recording format support FAT32, NTFS
- ▶ IN: HDMI, Microphone/OUT: HDMI (pass-through) USB Host, micro USB
- ▶ Maximum storage capacity 2TB

### Package contents:

- ▶ 1 x HDMI Grabber for HD acquisition
- ▶ 1 x HDMI Cable, 1 x Power Adapter, 1 x Micro-USB to USB Cable
