

Industrial Fiber to Ethernet Media Converter - 1Gbps SFP to RJ45/ Cat6 - Singlemode/Multimode Optical Fiber to Copper Gigabit Network - 12-56V DC - IP-30/ -40 to +75C

Product ID: IMC1GSFP

An industrial media converter that converts fiber to copper at a network endpoint.

This media converter features an open SFP slot for any standard gigabit SFP to be used for the incoming fiber connection and is easily deployed across applications or fiber cable types. Accepts terminal block power or coaxial power connectors with the barrel plug adapter, allowing the product to be hardwired or powered using an external power supply (not included), which does not require professional installation. It can be powered using 12V-56V DC for solar, automotive, rail, and other applications and requires a minimum 12V power input. Includes hardware for DIN rail or wall mounting.

Designed with IP-30 housing and has an MTBF of >500,000 hrs (Telcordia/Bellcore) at 50C and an operating temperature range of include -40 C to 75 C for durability; it's rated to various vibration, shock, and free-fall standards:

Vibration: EN 60068-2-6Shock: EN 60068-2-27Free-Fall: EN 60068-2-32

The IMC1GSFP is backed by a StarTech.com 2-year warranty and free lifetime technical support.
