SONY

MHCV13

High Power Audio System with BLUETOOTH®

Feel the music with the JET BASS BOOSTER and High-efficiency Tweeters inside the all-in-one MHC-V13 Home Audio System. Make the party yours with a speaker light, Karaoke function[6], and more. New functions like Party Playlist and Karaoke Ranking via Sony's Fiestable app[2] turn the party into a full-on interactive experience for everyone in attendance.

Bullets

- JET BASS BOOSTER for High-Power Audio
- Spread Sound with High-efficiency Tweeters
- Sing along with your favorite tunes with 2 Built-in Mic Inputs
- Enhance your experience with speaker light illumination
- Everyone can be DJ with Party Playlist and Karaoke Ranking, via Fiestable[2] app
- Take the party anywhere with built-in carry handles
- Enjoy more powerful sound with Wireless Party Chain[5]

Features

JET BASS BOOSTER for High-Power Audio

The compact MHC-V13 packs an impressive sound. Two High-efficiency Tweeters and JET BASS BOOSTER spread sound around the party, meaning your music reaches wider and higher from the front of the unit, so everyone at the party hears rich, clear sound.

Spread Sound with High-efficiency Tweeters

The two upward-facing high-efficiency Tweeters built on top of the front of the unit expand the sound stage and increase the sound pressure level upward, so your music travels further, wider and that little bit higher to reach every corner of the venue.

2 Built-in Mic Inputs

Sing along to your favorite tunes. A microphone input makes the MHC-V13 the perfect companion for karaoke[6] parties. You can also connect a guitar to the microphone input and use the system as a guitar amp. Enjoy three modes – Clean for a clear sound, Overdrive for a distorted guitar sound, and Bass for your bass guitar.

Enhance your experience with illumination

The Speaker Light sends out waves of multi-color illumination, so you can enjoy an authentic nightclub or outdoor festival atmosphere.

Let your friends create the Party Playlist via Fiestable

Everyone can add their favorite tunes to your playlist with the Fiestable app [2]. Let your guests add music stored in their smartphones over your Wi-Fi® network and give everyone a chance to be the DJ.

Find your singing superstar with Karaoke Ranking via Fiestable

Compete to find the King or Queen of karaoke [6] at your party with Karaoke Ranking. If someone ranks in the Top 10, they can record their name and song title on the leader board on the Fiestable[2] App.

Put the party in your hands with Fiestable

Entertaining, intuitive and easy to use, the Fiestable app [2] is a fun feature control that hands you over complete control of the MHC-V13. To use the Fiestable app[2], you'll need to download the Sony | Music Center app[3] first. Then, take control of the music, lighting and more, all by simply tapping your phone or using your voice.

Handle for easy carrying

Whenever you want to move the MHC-V13, just hold the convenient handle, lift and take it to wherever you want to party.

Boost the party with Wireless Party Chain

Enjoy more powerful sound by connecting multiple audio systems via Bluetooth ® connection[1]. Connect up to 50 compatible high-power audio systems and synchronize the music and lighting[5].

Feel the beat even at long distances with JET BASS BOOSTER

JET BASS BOOSTER uses a tapered bass reflex duct structure to concentrate the airflow of the bass sound, so you can hear it clearly and feel it physically wherever you are in the crowd, even over long distances.

Be the party king

Share your party status on social media with just one click from the Fiestable app [2]. Then, turn up the music and climb the party people ranks to become the certified Party King.

Run everything from the dancefloor

The Sony | Music Center app[3] lets you control music and sound settings right from your phone. Plus, the Fiestable app[2] puts you in charge of the light colors and lets you activate DJ and KARAOKE Mode. Make changes with a flick of your wrist, thanks to intuitive motion control.

Seamless streaming with Bluetooth®

Remove wireless connections and complex set up sequences. Connect via Bluetooth ® and you're ready to go[1].

Listen to more with DAB+

With the fully DAB+ compatible tuner, you can take your favorite radio stations anywhere you like.

Built for partying hard

The hard front and bottom corner protectors help make the system long-lasting and easy to take wherever the party is.

Multi device connection lets more people control the music

You and your friends can pair up to three smartphones with the MHC-V13 simultaneously using Bluetooth® technology[1]. You'll all be able to play tracks from all your music libraries, giving you even more choice.

USB port lets you plug in and play

Play tracks stored on a USB[4] drive, or make your own custom playlists with direct CD-to-USB [4] recording. Simply connect your USB[4] drive to the PLAY / REC port and you are set to power up your next party with all your favorite tracks.
