# HP Latex 315 Print and Cut Plus Solution

Grow with this 54-inch business-ready print and cut solution

### Complete HP solution—outstanding print and cut

- The HP Latex printer enables a wide range of odorless applications<sup>1</sup> and full bleed stickers that don't curl.
- The HP Latex cutter provides fast, accurate cutting and downforce up to 600 grams.
- The HP FlexiPRINT and CUT RIP includes True Shape Nesting—automatically save up to 50% more media.4
- HP Applications Center design tools are included, for easy creation of new applications in just 3 steps.<sup>3</sup>

### Up to 50% time savings with true print AND cut<sup>4</sup>

- Print AND cut at the same time—versus print OR cut integrated devices-with our reliable, dualdevice solution.
- Avoid solvent wait time—prints come out dry. cut/laminate right away with no degas time, and deliver same day.
- Avoid lamination for short-term applications scratch resistance enables outdoor durability up to 3 years.<sup>5</sup>

## Easy and reliable workflow

- Print/cut in a few steps—add cut lines from the • RIP, select cutting presets, and easily send to production.
- Accurate job recognition and error-free cutting • with HP Barcode and Optical Position System configurations.
- Easy-to-use cutter with a simple touchscreen • interface and media basket.

including exposure to direct sunlight and water; performance may vary as environmental conditions change.

<sup>&</sup>lt;sup>1</sup> There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

 <sup>&</sup>lt;sup>2</sup> Compared to printing without nesting. Based on performance demonstration by HP, September 2020.
<sup>3</sup> Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com.
<sup>4</sup> Based on internal HP testing, September 2020, comparing the HP Latex Print and Cut Plus Solution with integrated print and cut solutions at a comparable cost. An integrated printer/cutter device is a large-format printer that has a contour cutter embedded in the same printer that prints the media, then moves the media backwards to cut the printed output.
<sup>5</sup> Control output is the device of the rest of the printer output is the device is a large-format printer that has a contour cutter embedded in the same printer that prints the media, then moves the media backwards to cut the printed output. <sup>5</sup> Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks on self-adhesive vinyl and PVC banner. HP image permanence estimates by HP Image Permanence Lab. Outdoor display permanence tested according to SAE J2527 on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates,
