HP Latex 115 Print and Cut Plus Solution

Start—with this easy, affordable 54-in HP Latex print and cut solution

Complete HP solution—outstanding print and cut

- The HP Latex printer enables a wide range of . odorless applications¹ and full bleed stickers that don't curl.
- The HP Latex cutter provides fast, accurate cutting and downforce up to 400 grams.
- The HP FlexiPRINT and CUT RIP includes True Shape Nesting—automatically save up to 50% more media.²
- HP Applications Center design tools are included, for easy creation of new applications in just 3 steps.

Up to 50% time savings with true print AND cut⁴

- Print AND cut at the same time—versus print OR cut integrated devices-with our reliable, dualdevice solution.
- Avoid solvent wait time—prints come out dry, cut/laminate right away with no degas time, and deliver same day.
- Avoid lamination for short-term applicationsscratch resistance enables outdoor durability up to 3 years.⁵

Easy and reliable workflow

- Print/cut in a few steps—add cut lines from the • RIP, select cutting presets, and easily send to production.
- Accurate job recognition and error-free cutting with HP Barcode and Optical Position System configurations.
- Easy-to-use cutter with a simple touchscreen interface and media basket

¹ There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

² Compared to printing without nesting. Based on performance demonstration by HP, September 2020.
 ³ Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com.
 ⁴ Based on internal HP testing, September 2020, comparing the HP Latex Print and Cut Plus Solution with integrated print and cut solutions at a comparable cost. An integrated printer/cutter device is a large-format printer that has a contour cutter embedded in the same printer that prints the media, then moves the media backwards to cut the printed output.
 ⁵ Control output is the device of the result of the result

⁵ Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks on self-adhesive vinyl and PVC banner. HP image permanence estimates by HP Image Permanence Lab. Outdoor display permanence tested according to SAE J2527 on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change.
