Cookware for microwave

Æ

Safety instructions

IMPORTANT SAFETY INSTRUCTIONS

READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

WARNING: If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.

WARNING: It is hazardous for anyone other than a competent person to carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy.

WARNING: Liquids and other foods must not be heated in sealed containers since they are liable to explode.

WARNING: Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.

This appliance is intended to be used in household only and it is not intended to be used such as:

- staff kitchen areas in shops, offices and other working environments;
- farm houses;

۲

- by clients in hotels, motels and other residential environments;
- bed and breakfast type environments.

Only use utensils that are suitable for use in microwave ovens. When heating food in plastic or paper containers, keep an eye on the oven due to the possibility of ignition.

The microwave oven is intended for heating food and beverages. Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.

If smoke is observed (emitted), switch off or unplug the appliance and keep the door closed in order to stifle any flames.

Microwave heating of beverages can result in delayed eruptive boiling, therefore care must be taken when handling the container.

English 3

۲

The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns.

Eggs in their shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode, even after microwave heating has ended.

The oven should be cleaned regularly and any food deposits removed.

Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.

The appliance is intended to be used built-in only. The appliance shall not be placed in a cabinet.

Metallic containers for food and beverages are not allowed during microwave cooking.

The care should be taken not to displace the turntable when removing containers from the appliance. (Turntable models only)

The appliance shall not be cleaned with a steam cleaner.

The appliance should not be cleaned with a water jet.

The appliance is not intended for installing in road vehicles, caravans and similar vehicles etc.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

This Appliance should be allowed to disconnection from the supply after installation. The disconnection may be achieved by having the plug accessible or by incorporating a switch in the fied wiring in accordance with the wiring rules.

If supply cord without plug is installed on the appliance, the means for disconnection must be incorporated in the fixed wiring in accordance with the wiring rules.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

The method of fixing stated is not to depend on the use of adhesives since they are not considered to be a reliable fixing means. This oven should be positioned proper direction and height permitting easy access to cavity and control area.

Before using the your oven first time, oven should be operated with the water during 10 minute and then used.

If the oven generates a strange noise, a burning smell, or smoke is emitted, unplug the power plug immediately and contact your nearest service center.

WARNING: When the appliance is operated in the combination mode, children should only use the oven under adult supervision due to the temperatures generated.

During use the appliance becomes hot. Care should be taken to avoid touching heating elements inside the oven.

If this appliance has cleaning function, during cleaning conditions, the surfaces may get hotter than usual and children should be kept away. The cleaning function depends on the model.

WARNING: Accessible parts may become hot during use. Young children should be kept away.

(🌒

۲

Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass since they can scratch the surface, which may result in shattering of the glass.

A steam cleaner is not to be used.

WARNING: Ensure that the appliance is switched off before replacing the lamp to avoid the possibility of electric shock.

The appliance must not be installed behind a decorative door in order to avoid overheating.

WARNING: The appliance and its accessible parts become hot during use.

Care should be taken to avoid touching heating elements.

Children less than 8 years of age shall be kept away unless continuously supervised.

CAUTION: The cooking process has to be supervised. A short term cooking process has to be supervised continuously.

The door or the outer surface may get hot when the appliance is operating.

The temperature of accessible surfaces may be high when the appliance is operating.

The surfaces are liable to get hot during use.

The Appliances are not intended to be operated by means of an external timer or separate remote-control system.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised.

Keep the appliance and its cord out of reach of children less than 8 years.

Please put the bent up frame side to the back, in order to support the restposition when cooking big loads. (Depending on model)

6 English

General safety

(4)

Any modifications or repairs must be performed by qualified personnel only. Do not heat food or liquids sealed in containers for the microwave function. Do not use benzene, thinner, alcohol, or steam or high-pressure cleaners to clean the oven.

Do not install the oven: near a heater or flammable material; locations that are humid, oily, dusty or exposed to direct sunlight or water; or where gas may leak; or an uneven surface.

This oven must be properly grounded in accordance with local and national codes. Regularly use a dry cloth to remove foreign substances from the power plug terminals and contacts.

Do not pull, excessively bend, or place heavy objects on the power cord. If there is a gas leak (propane, LP, etc) ventilate immediately. Do not touch the power cord.

Do not touch the power cord with wet hands.

While the oven is operating, do not turn it off by unplugging the power cord. Do not insert fingers or foreign substances. If foreign substances enter the oven, unplug the power cord and contact a local Samsung service centre.

Do not apply excessive pressure or impact to the oven.

Do not place the oven over fragile objects.

Ensure the power voltage, frequency, and current matches the product specifications.

Firmly plug the power plug into the wall socket. Do not use multiple plug adapters, extension cords, or electric transformers.

Do not hook the power cord on metal objects. Make sure the cord is between objects or behind the oven.

Do not use a damaged power plug, power cord, or loose wall socket. For damaged power plugs or cords, contact a local Samsung service centre.

Do not pour or directly spray water onto the oven.

Do not place objects on the oven, inside, or on the oven door.

Do not spray volatile materials such as insecticide on the oven.

Do not store flammable materials in the oven. Because alcohol vapours can contact hot parts of the oven, use caution when heating food or drinks containing alcohol. Children may bump themselves or catch their fingers on the door. When opening/ closing the door, keep children away.

Microwave warning

Microwave heating of beverages may result in delayed eruptive boiling; always use caution when handling the container. Always allow beverages to stand at least 20 seconds before handling. If necessary, stir during heating. Always stir after heating.

In the event of scalding, follow these First Aid instructions:

- 1. Immerse the scalded area in cold water for at least 10 minutes.
- 2. Cover with a clean, dry dressing.

3. Do not apply any creams, oils, or lotions.

To avoid damaging the tray or rack, do not put the tray or rack in water shortly after cooking.

Do not use the oven for deep fat frying because the oil temperature cannot be controlled. This could result in a sudden boil over of hot oils.

Æ

 \bigcirc

Microwave oven precautions

Only use microwave-safe utensils. Do not use metallic containers, gold or silver trimmed dinnerware, skewers, etc.

Remove wire twist ties. Electric arcing may occur.

Do not use the oven to dry papers or clothes.

Use shorter times for small amounts of food to prevent overheating or burning. Keep the power cord and power plug away from water and heat sources.

To avoid the risk of explosion, do not heat eggs with shells or hard-boiled eggs. Do not heat airtight or vacuum-sealed containers, nuts, tomatoes, etc.

Do not cover the ventilation slots with cloth or paper. This is a fire hazard. The oven may overheat and turn off automatically and will remain off until it cools sufficiently.

Always use oven mitts when removing a dish.

Stir liquids halfway during heating or after heating ends and allow the liquid stand at least 20 seconds after heating to prevent eruptive boiling.

Stand at arms length from the oven when opening the door to avoid getting scalded by escaping hot air or steam.

Do not operate the oven when it is empty. The oven will automatically shut down for 30 minutes for safety purposes. We recommend placing a glass of water inside the oven at all times to absorb microwave energy in case the oven is started accidentally.

Install the oven in compliance with the clearances in this manual. (See Installing your microwave oven.)

Use caution when connecting other electrical appliances to sockets near the oven.

Microwave operation precautions

Failure to observe the following safety precautions may result in harmful exposure to microwave energy.

- Do not operate the oven with the door open. Do not tamper with the safety interlocks (door latches). Do not insert anything into the safety interlock holes.
- Do not place any object between the oven door and front face or allow food or cleaner residue to accumulate on sealing surfaces. Keep the door and door sealing surfaces clean by wiping with a damp cloth and then with a soft, dry cloth after each use.
- Do not operate the oven if it is damaged. Only operate after it has been repaired by a qualified technician.

Important: the oven door must close properly. The door must not be bent; the door hinges must not be broken or loose; the door seals and sealing surfaces must not be damaged.

All adjustments or repairs must be done by a qualified technician.

Æ

۲

Limited warranty

Samsung will charge a repair fee for replacing an accessory or repairing a cosmetic defect if the damage to the unit or accessory was caused by the customer. Items this stipulation covers include:

- Door, handles, out-panel, or control panel that are dented, scratched, or broken.
- A broken or missing tray, guide roller, coupler, or wire rack.

Use this oven only for its intended purpose as described in this instruction manual. Warnings and Important Safety Instructions in this manual do not cover all possible conditions and situations that may occur. It is your responsibility to use common sense, caution, and care when installing, maintaining, and operating your oven.

Because these following operating instructions cover various models, the characteristics of your microwave oven may differ slightly from those described in this manual and not all warning signs may be applicable. If you have any questions or concerns, contact a local Samsung service centre or find help and information online at www.samsung.com.

Use this oven for heating food only. It is intended for domestic use only. Do not heat any type of textiles or cushions filled with grains. The manufacturer cannot be held liable for damage caused by improper or incorrect use of the oven. To avoid deterioration of the oven surface and hazardous situations, always keep the oven clean and well maintained.

Product group definition

This product is a Group 2 Class B ISM equipment. The definition of group 2 which contains all ISM equipment in which radio-frequency energy is intentionally generated and/or used in the form of electromagnetic radiation for the treatment of material, and EDM and arc welding equipment.

For Class B equipment is equipment suitable for use in domestic establishments and in establishments directly connected to a low voltage power supply network which supplies buildings used for domestic purposes.

Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems) This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

For information on Samsung's environmental commitments and product specific regulatory obligations e.g. REACH visit: samsung.com/uk/aboutsamsung/ samsungelectronics/corporatecitizenship/data_corner.html

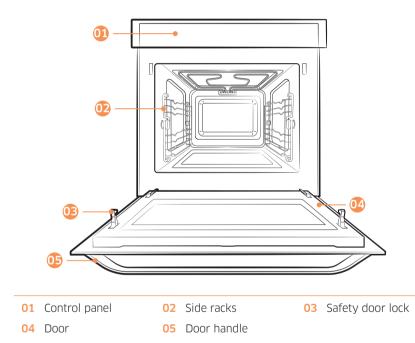

()

Installation

What's included

Make sure all parts and accessories are included in the product package. If you have a problem with the oven or accessories, contact a local Samsung customer centre or the retailer.

Oven at a glance

Accessories

۲

The oven comes with different accessories that help you prepare different types of food.

Ceramic tray (Useful for microwave mode.)

Grill insert (Useful for speed menu and grill mode.)

Baking trays (Do not use for microwave mode.)

Oven rack (Do not use for microwave mode.)

NOTE

See the **Cooking Smart** on page **28** to determine the appropriate accessory for your dishes.

Installation instructions

General technical information

Electrical Supply	230 V ~ 50 Hz	
	Set size	595 x 456 x 570 mm
Dimensions (W × H × D)	Built in size	560 x 446 x 549 mm

This appliance complies with EU regulations.

Disposal of packaging and appliance

Packaging is recyclable.

Packaging may consist of the following materials:

- cardboard;
- polyethylene film (PE);
- CFC-free polystyrene(PS rigid foam).

Please dispose of these materials in a responsible manner in accordance with government regulations.

The authorities can provide information on how to dispose of domestic appliances in a responsible manner.

Safety

(🌒

- This appliance should only be connected by a qualified technician.
- The Oven is NOT designed for use in a commercial cooking setting.
- It should be used exclusively for cooking food in a home setting.
- The appliance is hot during and after use.
- Exercise caution when young children are present.

Electrical connection

The house mains to which the appliance is connected should comply with national and local regulations.

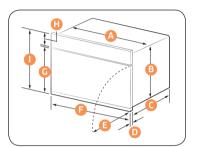

Appliance should allow to disconnection of the appliance from the supply after installation. The disconnection may be achieved by having the plug accessible or by incorporating a switch in the fixed wiring in accordance with the wiring rules.

Install in the cabinet

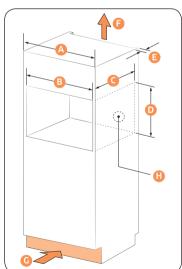

Kitchen cabinets in contact with the oven must be heatresistant up to 100 °C. Samsung will take no responsibility for damage of cabinets from the heat.

3. Fasten the oven using the two screws (4 x 25 mm) provoded.

- **4.** Make the electrical connection. Check that the appliance works.

Mounting the oven

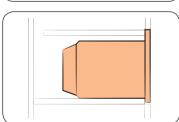

۲

 Slide the oven partly into the recess. Lead the connection cable to the power source.

Be sure to hold the appliance with 2 side handles and door handle when unpacking the product.

2. Slide the oven completely into the recess.

01 Door handle

02 Side handle

Maintenance

Cleaning

Clean the oven regularly to prevent impurities from building up on or inside the oven. Also pay special attention to the door, door sealing, and turntable and roller ring (applicable models only).

If the door won't open or close smoothly, first check if the door seals have built up impurities. Use a soft cloth in soapy water to clean both the inner and outer sides of the oven. Rinse and dry well.

To remove stubborn impurities with bad smells from inside the oven

- 1. With an empty oven, put a cup of diluted lemon juice on the centre of the turntable.
- 2. Heat the oven for 10 minutes at max power.
- **3.** When the cycle is complete, wait until the oven cools down. Then, open the door and clean the cooking chamber.

- Keep the door and door sealing clean and ensure the door opens and closes smoothly. Otherwise, the oven's lifecycle may be shortened.
- Take caution not to spill water into the oven vents.
- Do not use any abrasive or chemical substances for cleaning.
- After each use of the oven, use a mild detergent to clean the cooking chamber after waiting for the oven to cool down.

Replacement (repair)

۲

This oven has no user-removable parts inside. Do not try to replace or repair the oven yourself.

- If you encounter a problem with hinges, sealing, and/or the door, contact a qualified technician or a local Samsung service centre for technical assistance.
- If you want to replace the light bulb, contact a local Samsung service centre. Do not replace it yourself.
- If you encounter a problem with the outer housing of the oven, first unplug the power cord from the power source, and then contact a local Samsung service centre.

Care against an extended period of disuse

If you don't use the oven for an extended period of time, unplug the power cord and move the oven to a dry, dust-free location. Dust and moisture that builds up inside the oven may affect the performance of the oven.

- 2. Use the number pad to input each time element (hour and minute).
- 3. Tap **OK**.

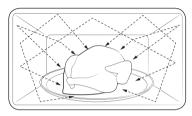

To return to the previous screen, tap .

NOTE

When done, The display is shown simple manual.

About microwave energy

Microwaves are high-frequency electromagnetic waves. The oven uses the prebuilt magnetron to generate microwaves which are used to cook or reheat food without deforming or discolouring the food.

- The microwaves generated by the magnetron are distributed uniformly through the whirling distribution system. This is why the food is cooked evenly.
- The microwaves are absorbed down to the food up to a depth of approx.
 2.5 cm. Then, the microwaves are dissipated inside the food as cooking continues.
- **3.** The cooking time is affected by the following conditions of the food.
 - Quantity and density
 - Moisture content
 - Initial temperature (especially, when frozen)

NOTE

The cooked food keeps heat in its core after cooking is complete. This is why you must respect the standing time specified in this manual, which ensures cooking evenly down to the core.

Cookware for microwave

Cookware used for Microwave Mode must allow microwaves to pass through and penetrate food. Metals such as stainless steel, aluminum and copper reflect microwaves. Therefore, do not use cookware made of metallic materials. Cookware marked microwave - safe is always safe for use. For additional information on appropriate cookware refer to the following guide and place a glass of water or some food on the turntable.

Requirements:

- Flat bottom and straight sides
- Tight-fitting lid
- Well-balanced pan with handles that weigh less than the main pan

Material	Microwave-safe	Description
Aluminium foil	Δ	Use for a small serving size to protect against overcooking. Arcing can occur if the foil is near the oven wall or if using an excessive amount of foil.
Crusty plate	0	Do not use for preheating for more than 8 minutes.
Bone china or earthenware	0	Porcelain, pottery, glazed earthenware and bone china are usually microwave- safe, unless decorated with a metal trim.
Disposable polyester cardboard dishes	0	Some frozen foods are packaged in these dishes.

۲

۲

Operations

The oven offers 10 top-level menus that cover all aspects of using and maintaining the oven, from which you can access any cooking modes, options, or advanced functions or settings.

Control panel

۲

The front panel comes in a wide range of materials and colours. For improved quality, the actual appearance of the oven is subject to change without notice.

01 Power	Press to turn the oven on. To turn it off, hold down for 1 seconds. If you encounter poor touching experience, or a blank screen (system down), hold down for 7 seconds to restart the oven.
02 Menu	Press to display 10 top-level menus: Oven function, MW Combi function, Auto cook, Auto defrost, Special function, Favourites, Steam cleaning, Timer, Setting, and Help.
03 Touch-enabled display	For first-time use, it displays the top-level menus. After the first use, it displays the most used menu. You can swipe to navigate through the menus, and tap to select a desired item.

04 Oven light	Press to turn the internal light on or off. The oven light turns on automatically when the door is open or when the oven operation starts. And it turns off automatically after a certain period of inactivity in order to save power.
05 Child lock	To prevent accidents, Child lock disables all controls. Hold down for 3 seconds to activate, or hold down for 3 seconds again to deactivate the lock on the control panel.

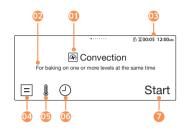

NOTE

Tapping on the display while wearing plastic or oven gloves may not operate properly.

English 19

()

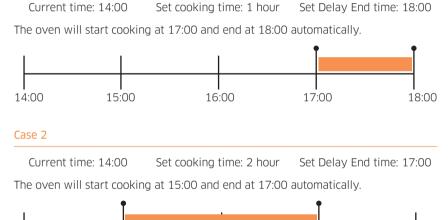

Operations

Delay End

Delay End is designed to make cooking more convenient.

Real-life case: Suppose you select a one-hour recipe at 14:00 and you want the oven to finish cooking at 17:00. To set the end time, change the Ready At time to 17:00. The oven will start cooking at 16:00 and end at 17:00 as you set.

Case 1

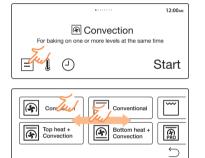

14:00 15:00 16:00 17:00 18:00

Do not keep cooked food in the oven too long. The food may spoil.

Oven function

1. On the main screen, You can see oven function. Select a cooking mode.

You can tap the List icon in the bottomleft corner, and select a desired cooking mode from the list that appears.

2. Convection For baking on one or more levels at the same time Start 12:00.44 Start 12:00.44 3. Convection

Start

For baking on one or more levels at the same time

- Change the default temperature and/ or cooking time or select options if preferred.
- 3. Tap Start.

NOTE

- Availability of settings differ with the cooking mode.
- You can change the cooking time at any time during cooking.
- When cooking is complete, a message of "Your cuisine is ready" appears with a melody. To extend the cooking time, tap "+5min" to extend the cooking time by 5 minutes.
- To save the current recipe, tap $\stackrel{\frown}{\searrow}$ to add it to the favourite list.

Cooking modes

۲

	Mode	Temperature range (°C)	Suggested temperature (°C)	
		40-250	180	
(sp)	Convection	The rear heating element generates heat, which is evenly distributed by the convection fan. Use this mode for baking and roasting on different levels at same time.		
		40-250	180	
\fbox	Top heat + Convection	The top heating element generates heat, which is evenly distributed by the convection fan. Use this mode for roasting that requires a crispy top (for example, meat or lasagne).		
		40-250	200	
	Conventional	The heat is generated from the top and bottom hea elements. This function should be used for standard baking and roasting for most types of dishes.		
		150-250	220	
	Large grill	The large-area grill emits heat. Use this mode for browning the tops of food (for example, meat, lasag or gratin).		

		40-250	220	
*	Fan grill	Two top heating elements generate heat, which is distributed by the fan. Use this mode for grilling meat or fish.		
		40-250	180	
Ð	Bottom heat + Convection	The bottom heating element generates heat, which is evenly distributed by the convection fan. Use this mode for pizza, bread, or cake.		
		40-250	180	
F	Intensive cook	Intensive cook activates all heating elements alternately to distribute heat evenly inside the oven. Use this mode for large recipes, such as large gratins or pies.		
		40-150	100	
E PRO	Pro-Roasting	Pro-Roasting runs an automatic pre-heating cycle until the oven temperature reaches 220 °C. Then, the top heating element and the convection fan start operating to sear food such as meat. After searing, the meat will be cooked at low temperatures. Use this mode for beef, poultry, or fish.

Operations

Timer

Timer helps you check the time or operating duration while cooking.

1. Press Menu, and then tap Timer.

- 2. Tap any time element to display the onscreen number pad.
- 3. Use the number pad to set a desired time.
- 4. When done, tap Start.

When the time has elapsed to a set point, a message of "**Time is up**" appears with a melody. Tap **OK** to confirm your settings.

Steam cleaning

This is useful for cleaning light soiling with steam.

This automatic function saves you time by removing the need for regular manual cleaning.

1. Access Menu > Steam cleaning, and then tap Start.

2. Remove all accessories as instructed, and then tap **OK**.

- Pour 100 ml of water onto the bottom of the oven and close the oven door, and then tap **OK**. It takes 15 minutes to complete the cycle.
- 4. Use a dry cloth to clean inside the oven.

Do not open the door before the cycle is complete. The water inside the oven is very hot, and it can cause a burn.

NOTE

- If the oven is heavily soiled with grease, for example, after roasting or grilling, it is recommended to remove stubborn soil manually using a cleaning agent before activating Steam cleaning.
- Leave the oven door ajar when the cycle is complete. This is to allow the interior enamel surface to dry thoroughly.
- While the oven is hot inside, auto cleaning is not activated. Wait until the oven cools down, and try again.
- Do not pour water onto the bottom by force. Do it gently. Otherwise, the water overflows to the front.

Settings

You may want to change the default settings to your preference, or to check the network connection for diagnosis. The oven offers you with 8 different setting items.

Language

Choose a display language.

• Access Menu > Settings, and then tap a preferred language.

Volume

Adjust the volume level for beeps and melodies.

 Access Menu > Settings, and then use the bar next to Volume to adjust the volume.

Brightness

Change the brightness of the display screen.

 Access Menu > Settings, and then use the bar next to Brightness to adjust the screen brightness.

About device

Check the current version of the firmware and License information.

• Access Menu > Settings > About device.

Software

Check the current version of the firmware.

License information

Check the license information of the firmware.

Display

The oven enters Standby mode after a certain time of inactivity, which displays the current time. You can enable or disable the clock screen that appears in Standby mode.

- Access Menu > Settings, and then tap to toggle between On and Off.
- The display of the current time automatically turns off after a few minutes.

Clock type

Select a clock type of the current time that appears in Standby mode. Two types are available, Analogue and Digital.

Access Menu > Settings, and then tap to toggle between Analog and Digital.

Clock format

Select a time format of the current time that appears in Standby mode. Two formats are available, 12-hour and 24-hour.

Access Menu > Settings, and then tap to toggle between 24h and AM/PM (12h).

Set time

Set the current time.

- 1. Access Menu > Settings > Set time.
- 2. Tap any time element to display the onscreen number pad.
- 3. Use the number pad to enter each element (hour and minute).
- 4. Tap to toggle between **AM** and **PM** (avaliable with the 12-hour format).
- 5. Tap **OK** to save your changes.

Help

Useful tips and explanations on a specific item that you select.

Troubleshooting

Tap a checkpoint directly on the screen, and try the suggestions.

Guide for first use

You will be provided with simple instructions on basic use of the oven.

Auto defrost

۲

Cooking Smart

The following table presents the various Auto defrost programmes, quantities, standing times and appropriate recommendations. These programmes use microwave energy only. Remove all packaging material before defrosting. Place meat, poultry and fish on the ceramic tray.

Food	Serving size (g)	Accessory	Level	Standing time (min.)	
Meat	0.2-2.0	Ceramic tray	1	20-60	
	Shield the edges with aluminium foil. Turn the meat over, when the oven beeps. This programme is suitable for beef, lamb, pork, steaks, chops, minced meat.				
Poultry	0.2-2.0	Ceramic tray	1	20-60	
	-	l wing tips with alu eeps. This programn n portions.			
Fish	0.2-2.0	Ceramic tray	1	20-60	
	Shield the tail of a whole fish with aluminium foil. Turn the fish over, when the oven beeps. This programme is suitable for whole fishes as well as for fish fillets.				
Bread/Cake	0.1-1.0	Ceramic tray	1	10-30	
	Put bread on a piece of kitchen paper and turn over, as soon as the oven beeps. Place cake on ceramic tray and if possible, turn over, as soon as the oven beeps. (Oven keeps operating and is stopped, when you open the door.) This programme is suitable for all kinds of bread, sliced or whole, as well as for bread rolls and baguettes. Arrange bread rolls in a circle. This programme is suitable for all kinds of yeast cake, biscuit, cheese cake and puff pastry. It is not suitable for short / crust pastry, fruit and cream cakes as well as for cake with chocolate topping.				
Fruit	0.1-0.8	Ceramic tray	1	5-15	
		fruit evenly on cera like raspberries, mi	5 1	5	

Manual cooking

۲

Microwave cooking guide

- Do not use metal containers with Microwave mode. Always put food containers on the turntable.
- It is recommended to cover the food for best results.
- After cooking is complete, let the food settle in its own steam.

Frozen vegetables

- Use a glass Pyrex container with a lid.
- Stir vegetables twice during cooking, and once after cooking.
- Add seasoning after cooking.

Food	Serving size (g)	Power (W)	Cooking time (min.)	Standing time (min.)	
Spinach	150	600	5-6	2-3	
	Add 15 ml (1 t	tbsp.) of cold wa	ater.		
Broccoli	300	600	8-9	2-3	
	Add 30 ml (2 tbsp.) of cold water.				
Peas	300	600	7-8	2-3	
	Add 15 ml (1	tbsp.) of cold wa	ater.		
Green Beans	300	600	7½-8½	2-3	
	Add 30 ml (2 t	tbsp.) of cold wa	ater.		
Mixed Vegetables	300	600	7-8	2-3	
(Carrots/Peas/Corn)	Add 15 ml (1	Add 15 ml (1 tbsp.) of cold water.			
Mixed Vegetables	300	600	7½-8½	2-3	
(Chinese Style)	Add 15 ml (1 tbsp.) of cold water.				

Fresh vegetables

۲

- Use a glass Pyrex container with a lid.
- Add 30-45 ml of cold water for every 250 g.
- Stir once during cooking, and once after cooking.
- Add seasoning after cooking.
- For faster cooking, it is recommended to cut into smaller, even sizes.
- Cook all fresh vegetables using full microwave power (900 W).

Food	Serving size (g)	Cooking time (min.)	Standing time (min.)	
Broccoli	250 500	4-5 5-6	3	
	Prepare even sized	florets. Arrange the s	stems to the centre	
Brussels sprouts	250 500	5-6 7-8	3	
	Add 60-75 ml (4-5	tbsp.) of water.		
Carrots	250	5-6	3	
	Cut carrots into even sized slices.			
Cauliflower	250 500	5-6 7-8	3	
	Prepare even sized Arrange stems to th	florets. Cut big florets into halves. e centre.		
Courgettes	250	3-4	3	
	Cut courgettes into knob of butter. Cool	slices. Add 30 ml (2 t < until just tender.	bsp.) of water or a	
Egg Plants	250	3-4	3	
	Cut egg plants into small slices and sprinkle with 1 tablespoon lemon juice.			
Leeks	250	3-4	3	
	Cut leeks into thick	slices.		

Mushrooms	125 250	1-2 2-3	3		
	Prepare small whole or sliced mushrooms. Do not add any water. Sprinkle with lemon juice. Spice with salt and pepper. Drain before serving.				
Onions	250	4-5	3		
	Cut onions into slices or halves. Add only 15 ml (1 tbsp.) water.				
Peppers	250	4-5	3		
	Cut pepper into sma	all slices.			
Potatoes	250 500	4-5 7-8	3		
	Weigh the peeled potatoes and cut them into similar sized halves or quarters.				
Turnip cabbage	250	5-6	3		
	Cut turnip cabbage	into small cubes.

Rice and pasta

Stir from time to time during and after cooking. Cook uncovered, and close the lid during settling. Then, drain water thoroughly.

- **Rice**: Use a large glass Pyrex container with a lid against the rice doubling in volume.
- Pasta: Use a large glass Pyrex container.

1	Food	Serving size (g)	Power (W)	Cooking time (min.)	Standing time (min.)	Directions	
White	e rice	250	900	17-18	5	Add 500 ml of cold water.	
(parb	ooiled)	375	900	900 18-20		Add 750 ml of cold water.	
Brow	/n rice	250	900	000	20-22	5	Add 500 ml of cold water.
(parb	(parboiled)	375		22-24	J	Add 750 ml of cold water.	
	d rice + wild	250	900	17-19	5	Add 500 ml of cold water.	
	d corn + grain)	250	900	18-20	5	Add 400 ml of cold water.	
Pasta	9	250	900	10-11	5	Add 1000 ml of hot water.	

Reheating

۲

- Do not reheat large-sized foods such as joints of meat, which easily overcook.
- It is safer to reheat foods at lower power levels.
- Stir well or turn over during and after cooking.
- Use caution for liquids or baby foods. Stir well before, during, and after cooking with a plastic spoon or glass stirring stick to prevent eruptive boiling and scalding. Keep them inside the oven during the standing time. Allow a longer reheating time than other food types.
- Recommended standing time after reheating is 2-4 minutes. See the table below for reference.

Liquids and food

Food	Serving size	Power (W)	Cooking time (min.)	Standing time (min.)
Drink	250 ml (1 mug) 500 ml (2 mugs)	900	1½-2 2-3	1-2

Defrost

۲

Put frozen food in a microwave-safe container without a cover. Turn over during defrosting, and drain off liquid and remove giblets after defrosting. For faster defrosting, cut the food into small pieces, and wrap them with aluminum foil before defrosting. When the outer surface of frozen foods begins to melt, stop defrosting and let stand as instructed in the table below.

Do not change the default power level (180 W) for defrosting. Place food on ceramic tray, and then insert ceramic tray in level 1.

	Food	Serving size (g)	Defrosting time (min.)	Standing time (min.)	
Meat	Minced meat	250 500	6-7 8-12	15-30

Top heat + Convection

۲

Use temperatures and times in this table as guidelines for roasting. We recommend to preheat the oven using Top heat + convection mode. Put meat on oven rack, follow shelf level advice in the table and use baking tray as oil pan on level 2.

Food	Temp. (°C)	Accessory	Level	Cooking time (min.)
Beef roast beef (1 kg / medium)	170-190	Oven rack + Baking tray	3+2	60-90
Pork shoulder joint / Roll (1 kg)	180-200	Oven rack + Baking tray	3+2	90-120
Lamb roast lamb / Leg of lamb (0.8 kg)	190-210	Oven rack + Baking tray	3+2	50-80
Chicken whole chicken (1.2 kg)	200-220	Oven rack + Baking tray	3+2	50-70
Fish whole trouts (2 pcs / 0.5 kg)	180-200	Oven rack + Baking tray	3+2	30-40
Duck breast (0.3 kg)	180-200	Oven rack + Baking tray	3+2	25-35

 (\bullet)

Bottom heat + Convection

Use temperatures and times in this table as guidelines for baking. We recommend to preheat the oven with Bottom heat + convection mode.

Food	Temp. (°C)	Accessory	Level	Cooking time (min.)
Homemade pizza	180-200	Baking tray	2	20-30
Chilled pre-baked quiche / Pie	180-200	Oven rack	2	10-15
Frozen self rising pizza	180-200	Baking tray	2	15-20
Frozen pizza	180-200	Baking tray	2	15-25
Chilled pizza	180-200	Baking tray	2	8-15
Apple pie	160-180	Oven rack	2	60-70
Puff pastry, apple filling	180-200	Baking tray	2	10-15

Grilling guide

Large grill

Use temperatures and times in this table as guidelines for grilling. Set 220 °C grill temperature, preheat for 5 minutes.

Food	Accessory	Level	Cooking time 1st side (min.)	Cooking time 2nd side (min.)
Kebab spits	Oven rack + Baking tray	5+2	8-10	6-8
Pork steaks	Oven rack + Baking tray	5+2	7-9	5-7
Sausages	Oven rack	5+2	6-8	6-8

Cooking Smart

Quick & Easy

Melting butter

Put 50 g butter into a small deep glass dish. Cover with plastic lid. Heat for 30-40 seconds using 900 W, until butter is melted.

Melting chocolate

Put 100 g chocolate into a small deep glass dish. Heat for 3-5 minutes, using 450 W until chocolate is melted. Stir once or twice during melting. Use oven gloves while taking out!

Meltng crystallized honey

Put 20 g crystallized honey into a small deep glass dish. Heat for 20-30 seconds using 300 W, until honey is melted.

Melting gelatine

(🌒

Lay dry gelatine sheets (10 g) for 5 minutes into cold water. Put drained gelatine into a small glass pyrex bowl. Heat for 1 minute using 300 W. Stir after melting.

Cooking glaze/icing (for cake and gateaux)

Mix instant glaze (approximately 14 g) with 40 g sugar and 250 ml cold water. Cook uncovered in a glass pyrex bowl for 3½ to 4½ minutes using 900 W, until glaze/icing is transparent. Stir twice during cooking.

Cooking jam

Put 600 g fruits (for example mixed berries) in a suitable sized glass pyrex bowl with lid. Add 300 g preserving sugar and stir well. Cook covered for 10-12 minutes using 900 W. Stir several times during cooking. Put directly into small jam glasses with twist-off lids. Stand on lid for 5 minutes.

Cooking pudding

Mix pudding powder with sugar and milk (500 ml) by following the manufacturers instructions and stir well. Use a suitable sized glass pyrex bowl with lid. Cook covered for 6½ to 7½ minutes using 900 W. Stir several times well during cooking.

Browning almond slices

Spread 30 g sliced almonds evenly on a medium sized ceramic plate. Stir several times during browning for 3½ to 4½ minutes using 600 W. Let it stand for 2-3 minutes in the oven. Use oven gloves while taking out!

()

Troubleshooting

You may encounter a problem using the oven. In that case, first check the table below and try the suggestions. If a problem persists, or if any information code keeps appearing on the display, contact a local Samsung service centre.

Checkpoints

If you encounter a problem with the oven, first check the table below and try the suggestions.

Problem	Cause	Action
General		
The buttons cannot be pressed properly.	Foreign matter may be caught between the buttons.	Remove the foreign matter and try again.
	For touch models: Moisture is on the exterior.	Wipe the moisture from the exterior.
	Child lock is activated.	Deactivate Child lock.
The time is not displayed.	Power is not supplied.	Make sure power is supplied.
	The display option is off.	Turn the display option on. It is normal for the current time to disappear a few minutes after the display option has been turned on.
The oven does not work.	Power is not supplied.	Make sure power is supplied.
	The door is open.	Close the door and try again.
	The door open safety mechanisms are covered in foreign matter.	Remove the foreign matter and try again.

Problem	Cause	Action
The oven stops while in operation.	The user has opened the door to turn food over.	After turning over the food, press the Start button again to start operation.
The power turns off during operation.	The oven has been cooking for an extended period of time.	After cooking for an extended period of time, let the oven cool.
	The cooling fan is not working.	Listen for the sound of the cooling fan.
	Trying to operate the oven without food inside.	Put food in the oven.
	There is not sufficient ventilation space for the oven.	There are intake/exhaust outlets on the front and rear of the oven for ventilation. Keep the gaps specified in the product installation guide.
	Several power plugs are being used in the same socket.	Designate only one socket to be used for the oven.
There is no power to the oven.	Power is not supplied.	Make sure power is supplied.
There is a popping sound during operation, and the oven doesn't work.	Cooking sealed food or using a container with a lid may causes popping sounds.	Do not use sealed containers as they may burst during cooking due to expansion of the contents.

Troubleshooting

 (\bullet)

Problem	Cause	Action
The oven exterior is too hot during operation.	There is not sufficient ventilation space for the oven.	There are intake/exhaust outlets on the front and rear of the oven for ventilation. Keep the gaps specified in the product installation guide.
	Objects are on top of the oven.	Remove all objects on the top of the oven.
The door cannot be opened properly.	Food residue is stuck between the door and oven interior.	Clean the oven and then open the door.
The oven does not heat.	The oven may not work, too much food is being cooked, or improper cookware is being used.	Put one cup of water in a microwave-safe container and run the microwave for 1-2 minutes to check whether the water is heated. Reduce the amount of food and start the function again. Use a cooking container with a flat bottom.

Problem	Cause	Action
Heating is weak or slow.	The oven may not work, too much food is being cooked, or improper cookware is being used.	Put one cup of water in a microwave-safe container and run the microwave for 1-2 minutes to check whether the water is heated. Reduce the amount of food and start the function again. Use a cooking container with a flat bottom.
The warm function does not work.	The oven may not work, too much food is being cooked, or improper cookware is being used.	Put one cup of water in a microwave-safe container and run the microwave for 1-2 minutes to check whether the water is heated. Reduce the amount of food and start the function again. Use a cooking container with a flat bottom.

Brightness changes depending on power output changes according to function.	Power output changes during cooking are not malfunctions. This is not an oven malfunction.	

۲

۲

Problem	Cause	Action
Cooking is finished, but the cooling fan is still running.	To ventilate the oven, the cooling fan continues to run for about 5 minutes after cooking is complete.	This is not an oven malfunction.
Pressing the +30sec button operates the oven.	This happens when the oven was not operating.	The microwave oven is designed to operate by pressing the +30sec button when it was not operating.
Turntable		
While turning, the turntable comes out of place or stops turning.	There is no roller ring, or the roller ring is not properly in place.	Install the roller ring and then try again.
The turn table drags while turning.	The roller ring is not properly in place, there is too much food, or the container is too large and touches the inside of the microwave.	Adjust the amount of food and do not use containers that are too large.
The turn table rattles while turning and is noisy.	Food residue is stuck to the bottom of the oven.	Remove any food residue stuck to the bottom of the oven.

Problem	Cause	Action		
Grill				
Smoke comes out during operation.	During initial operation, smoke may come from the heating elements when you first use the oven.	This is not a malfunction, and if you run the oven 2-3 times, it should stop.		
	Food is on the heating elements.	Let the oven cool and then remove the food from the heating elements.		
	Food is too close to the grill.	Put the food a suitable distance away while cooking.		
	Food is not properly prepared and/or arranged.	Make sure food is properly prepared and arranged.		
Oven				
The oven does not heat.	The door is open.	Close the door and try again.		
Smoke comes out during preheating.	During initial operation, smoke may come from the heating elements when you first use the oven.	This is not a malfunction, and if you run the oven 2-3 times, it should stop.		
	Food is on the heating elements.	Let the oven cool and then remove the food from the heating elements.		

۲

۲

Troubleshooting

Problem	Cause	Action
There is a burning or plastic smell when using the oven.	Plastic or non heat- resistant cookware is used.	Use glass cookware suitable for high temperatures.
There is a bad smell coming from inside the oven.	Food residue or plastic has melted and stuck to the interior.	Use the steam function and then wipe with a dry cloth. You can put a lemon slice inside and run the oven to remove the odour more quickly.
The oven does not cook properly.	The oven door is frequently opened during cooking.	Do not frequently open the door unless you are cooking things that need to be turned. If you open the door often, the interior temperature will be lowered and this may affect the results of your cooking.
	The oven controls are not correctly set.	Correctly set the oven controls and try again.
	The grill or other accessories are not correctly inserted.	Correctly insert the accessories.
	The wrong type or size of cookware is used.	Reset the oven controls or use suitable cookware with flat bottoms.

Information codes

If the oven fails to operate, you may see an information code on the display. Check the table below and try the suggestions.

Code	Description	Action
C-20	The temperature sensor is open.	
C-20	The temperature sensor is short.	
C-F0	If there is no communication between the main and sub MICOM.	Unplug the power cord of the oven, and contact a local Samsung service centre.
C-F1	Only occurs during EEPROM Read/Write	
C-21	This code appears when the oven temperature high. In case the temperature rises over the limit temperature during operation of each mode. (Fire sensed.)	Unplug the power cord for cooling enough time, and restart the microwave oven.
C-F2		Stop the oven and then try again.
C-d0	The touch key is malfunction.	Unplug the power cord for cooling enough time, and clean the button. (Dust, Water) When appear same problem, contact a local Samsung service centre.
