5 YEARS WARRANTY
+ TECHNICAL SUPPORT

ADDING M.2 FORM FACTOR TO THE IRDM PORTFOLIO

The newly launched solid state drive offers several times faster performance in relation to SATA III. This also means 6x better loading speed and faster writing process during playing your favourite games.

AVAILABLE CAPACITIES:

256 GB

512 GB

1 TB

2 TB

TO MEET USERS EXPECTATIONS

By offering 3200 MB/s read speed with a PCIe 3x4 interface, it gives decent potential relevant to its 3.0 generation. The IRDM M.2 specification allows the SSD to be used as an alternate to 4.0 interface products, of which performance is to meet highest demands but they are still very expensive to many users.

READ/WRITE SPEED:

3 200 MB/s

MAX. READ SPEED

3 000 MB/s

MAX. WRITE SPEED

WARRANTY AND TECHNICAL SUPPORT

The product is covered by manufacturer's warranty for 5 years* and it comes along with technical support. Detailed tests and selection of components made it possible to create an efficient and durable SSD.
