

MPN: COAX015

Coaxial, M-F, 1.5m, Black, 75 Ohm

The Coax M-F 1.5m Black 75 Ohm cable (COAX015) provides a reliable connection for your antenna and audio-visual equipment. This high-quality coaxial cable ensures optimal signal transmission with its 75 Ohm impedance, minimizing signal loss and interference for a clear and crisp picture or sound. At 1.5 meters in length, this black coaxial cable offers flexibility in connecting devices without excessive slack. MicroConnect delivers premium quality at fair prices, and this coaxial cable exemplifies our commitment to providing dependable connectivity solutions backed by over 20 years of industry expertise. Whether you're setting up a new entertainment system or replacing an old cable, the Coax M-F 1.5m Black 75 Ohm cable offers the performance and durability you can trust.
