## RGB MID-TOWER

GEMINI T

Gemini S is an advanced gaming mid-tower case with a full-sized tempered glass cover and an integrated RGB lighting system that delivers everything a gamer needs.

### Integrated RGB Lighting

Gemini S features COUGAR's exclusive Trelux integrated lighting system. This advanced design allows it to display fourteen amazing lighting effects without installing any additional devices in the case and control them through the integrated lighting button.

Trelux can also work connected to a COUGAR Core Box v2 or to a compatible motherboards' 5V connection for system-wide lighting synchronization.

### Massive Tempered Glass Left Panel

With the full-length PSU cover hides cables and a massive tempered glass left panel presents a clean and tidy build, you can easily build a pro-level system. Furthermore, we use metal frames, instead of drilling tempered glass with 4 holes in corners, which helps to minimize the risk of breakage.

### Vertical GPU Support

This revolutionary case is both about performance and aesthetics. To bring your system's awesomeness to the limit, Gemini S supports vertical GPU installation.

\* Please choose either of a Vertical Graphic Card or 2.5" SSD trays on the PSU cover to install.

\* Top fans and radiators are optional, specifications might vary depending on the country or region of sale.

### Top-notch Gaming Hardware

To offer top-notch performance, Gemini S is able to house a mighty build. Its excellent support for up to 410mm-long graphics cards and E-ATX motherboards bring you unprecedented freedom of hardware system.

\* Top fans and radiators are optional, specifications might vary depending on the country or region of sale.

### Elegant Design

Gemini S' brushed metal-like front panel gives it a unique look that sets it apart from other compact cases. This texture is also a great companion to the integrated lighting since the powerful lights coming out of it benefit from the reflective surroundings that help reinforce the effects.

## RGB MID-TOWER

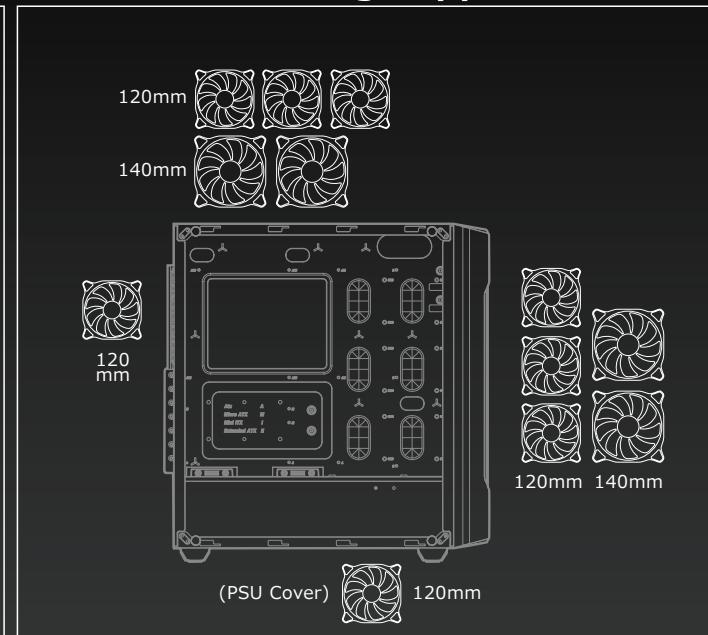

### Top-notch Cooling

Gemini S' compact layout allows you to install eight fans and three water cooling radiators, with the front and top ones up to 360mm. This immense cooling potential will enable you to choose freely the components you want in your build.

#### Water cooling radiator support

#### Air cooling support

\*Please choose either of front or top to install a 360mm radiator.

\*Please choose either of a TOP 360mm radiator or FRONT 120mm x 3 fans to install.

\*Top 360mm radiator supports within 30mm thickness.

### Incredible Storage

Up to two 3.5" HDDs and five 2.5" SSDs or seven 2.5" SSDs will provide you with all the storage you need to install games and store all kinds of media.

There are two SSD trays in this case. Please select two locations you prefer to install.
