

Managed USB-C to 2.5G Ethernet (PXE Boot and DASH) Adapter

Fast wired connectivity and easy IT remote management all in one simple device.

K38295WW

Product Description

The Managed USB-C® to 2.5G Ethernet (PXE Boot and DASH) Adapter delivers a remote out-of-band access solution designed and certified exclusively for HP business laptops powered by AMD Ryzen™ PRO processors. Now, IT admins can wake on LAN and remotely push updates, check the health of a laptop, make BIOS updates to systems and more — all through a single USB-C port.

Features

- Designed exclusively for HP business laptops powered by AMD Ryzen PRO processors (starting with 2020 HP EliteBook G7 835/845/855) and HP ProBook 635 Aero Edition.
- DASH and PXE Boot capability allows IT admins to wake on LAN and remotely push updates, check the health of a laptop, make BIOS updates to systems and more.
- Provides a reliable connection and rapid data transfer. LED indicator lights confirm the connection.
- Plug-and-play adapter features a built-in driver enabling 2.5Gbps Ethernet out of the box.
- Compact, mobile design is ideal for people on the go.
- With a two-year limited warranty, you can rest assured knowing you are protected by Kensington.
