

Philips
Digital in-line amplifier

SDW5005

Boost signal from satellite dish to receiver

Maintain high signal quality when there is a distance of over 50 ft between your satellite dish and the receiver.

Enjoy a better, brighter picture

- Minimum signal loss

Maintain the quality of your signal

- 13 dB amplification

Enjoy extended durability

- Corrosion-resistant connections

PHILIPS
sense and simplicity

Specifications

Packaging Data

- **Quantity:** 1
- **EAN/UPC/GTIN:** 6 09585 11807 2
- **Gross weight:** .12 kg
- **Net weight:** .070 kg
- **Length:** 200 mm
- **Height:** 35 mm

Outer Carton

- **EAN/UPC/GTIN:** 1 06 09585 11807 9
- **Quantity:** 6
- **Gross weight:** 1.12 kg
- **Tare weight:** .4 kg
- **Net weight:** .72 kg
- **Length:** 216 mm
- **Width:** 146 mm
- **Height:** 197 mm

Product highlights

13 dB amplification

This boosts the incoming signal to compensate for losses in the cable over long runs.

Corrosion-resistant connection

24K gold-electroplated connectors create secure and extremely durable connections that optimize signal quality and deliver the best picture and data transfer.

Minimum signal loss

Signal information is inevitably lost going from any digital source to any TV. Minimum signal loss means you only lose the least amount of that signal information.
