Green Specifications

- Lead-free soldered product

Dimensions

- Product dimensions (WxDxH): 55x21x14 mm (main body)
- Product weight (g): 18 (clip on, incl. ear piece)
- Weight incl. Packaging: 0.199 kg
- Blister dimensions (WxDxH): 14.8x5.7x25.8 cm

Inner Carton

- Gross weight: 1.29 kg
- Inner carton (L x W x H): 29 x 26.9 x 17.2 cm
- Nett weight: .4 kg
- Tare weight: .89 kg

Outer Carton

- Gross weight: 3.203 kg
- Outer carton (L x W x H): 54.5 x 31.2 x 19.9 cm
- Nett weight: .8 kg
- Tare weight: 2.403 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 14.8 x 25.8 x 5.7 cm
- Gross weight: .199 kg
- Nett weight: .08 kg
- Tare weight: .119 kg

Highlights

Wireless call management

Manage your call without using your mobile phone. This includes call acceptance, rejection, voice dial and redial. Voice dial and redial have to be supported by your mobile phone.

Bluetooth HSP/HFP compliant

Bluetooth is a cable replacement technology. Bluetooth is a global standard, so Bluetooth devices of different manufacturers can interoperate using shared Bluetooth profiles. HSP (Handset Profile) and HFP (Handsfree Profile) are the profiles required for typical Bluetooth headset operations. If your mobile phone is compliant to HSP or HFP (like virtually any Bluetooth enabled phone) this headset will work with it. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Koninklijke Philips Electronics N.V. is under license.

You choose the wearing style

You choose between clipping the product to your cloth or wearing it around the neck. Both styles have been designed for discreteness, style and comfort. Adapt the wearing style to your preferences and to your usage situation.

Wireless handsfree talking

Using your cellphone without a headset can be inconvenient and unsafe. In many locations it is also illegal while driving. Wired handsfree kits add the hassle of a cable. A Bluetooth headset replaces the cable with a short range wireless Bluetooth connection, so your hands are free and your freedom to move is not hampered by a cable. Because the transmitted energy close to your head is much lower than that radiated from your mobile phone Bluetooth also decreases potential risks associated with cellphone radiation.
