Amarant linear outdoor light

Hue White and Colour Ambiance

- LED integrated
- White and coloured light
- Low Volt system – extension
- Smart control with Hue Bridge*

1746630P7

Easy smart lighting

Wash large expanses of your outdoor spaces, such as fences, walls and hedges, with white and colour light. Part of the LowVolt system, the Amarant linear spotlight connects to a Philips Hue power supply unit and can even be connected to one another, creating a continuous wall of light.

Limitless possibilities

- Paint your outdoors with 16 million colours
- Special light for special occasions

Easy control and comfort

- Control it your way

Full control from a smart device with the Hue bridge

- Requires a Philips Hue bridge

Specially designed for your outdoor spaces

- Easy to install and extend
- Weather-proof (IP65)

Issue date: 2026-10-28 Version: 0.637

Specially designed for your outdoor spaces

- Connect multiple lights
- A wash of colourful light

Highlights

Paint your outdoors

With Philips Hue outdoor lighting, there's no limit to the magic you can add. Play with 16 million colours and all shades of white light to create the effect you want. Highlight objects, trees or pathways to make your space stand out. Use the Hue app to save your favourite light settings and recall them whenever you want with the tap of a finger.

Special light for special occasions

Holiday cheer starts here – with smart light! Use your Philips Hue lights to transform your home into a festive experience: bright reds and greens for Christmas, subtle pastels for spring or even an eerie purple glow to create the most haunted house on the street at Halloween.

Control it your way

Connect your Philips Hue lights with the Bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add the indoor switches to your system to change your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple Homekit and the Google Assistant to allow you to control your lights with your voice.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Easy to install and extend

Brighten up dark paths, create highlights in your landscaping or create a unique ambience on the patio. You can do it yourself, using Hue spots or bollards. The products are based on low voltage, safe to use and easy to install. No more complexity to get lighting outdoors: start to create and extend to suit your needs.

Weather-proof (IP65)

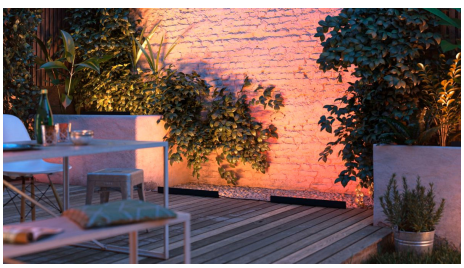

This Philips Hue outdoor fixture is specially designed for use in outdoor environments and has undergone rigorous tests to ensure its performance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This lamp is designed with IP65: this means that it is protected against low-pressure jets of water. It is a higher level of protection than IP44 and commonly used when luminaires are close to the ground or require higher protection due to certain outdoor conditions.

Connect multiple lights

Thanks to its LowVolt design, the Amarant connects to a single power supply unit. Once you have one set up, you can connect multiple linear spotlights to the first, creating a daisy chain of lights.

A wash of colourful light

The built-in metal shield directs light upwards and out, creating an even spread of light across large surfaces – and eliminating harsh glare. The Amarant is best for large walls, fences or hedges that span a large length of your garden.

Specifications

Design and finishing
- Colour: Black
- Material: Synthetic

Durability
- Nominal lifetime: 25,000

Extra feature/accessory incl.
- Dimmable with the Hue app and switches: Yes
