

Motion Tracking Webcam 1080P

Item no.:

134-27

EAN:

Sandberg Motion Tracking Webcam 1080P HD is an intelligent webcam that follows you. The camera itself moves in the direction that you move in. For instance it is extremely useful for online presentations where you move around the room. The package includes a tripod to allow the camera free rotation. With its 1080P HD resolution, you get a razor-sharp picture and the integrated microphone ensures optimal voice recording. The camera works immediately without driver installation.
