

BUSINESS DEVICES THAT ARE A CLASS APART

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

ThinkPad L490

Smarter
technology
for all

Lenovo

This mid-range ThinkPad has the latest 8th Gen Intel Core™ processors, several security and privacy features, plus optional discrete AMD Radeon graphics. Mobile users will also appreciate its MIL-SPEC tested design, ensuring durability when travelling, and up to 12 hours of battery life on a single charge. Two onboard USB-C ports ensure easy connection to the latest peripherals including our range of ThinkPad Docking Stations which feature mechanical docking around the side of the device.

REASONS TO BUY

The optional Intel Optane™ memory knows which files and programs are opened most frequently and accelerates them. Large files and commonly-used applications will now be ready for use more quickly.

Getting work done on the road is easier with optional 4G WWAN connectivity, which provides data access even outside of WiFi range.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
