# Highlights

## 32 mm speaker driver

The 32 mm speaker driver is a compact yet powerful element for delivering non-distorted sound with any given input power.

## Bass Beat vents

Bass beat vents allow air movement for better sound with a deep rich bass.

## Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

## Comfort ear cushions

The special shape and luxurious materials used for the ear cushions of these Philips headphones ensure a perfect fit for maximum comfort. They prevent audio leakage and enhance bass performance too. The ear cushions are shaped in such a way that they perfectly align with the area around a person's ear.

## Single-sided cable

The cable is conveniently connected to just one side, considerably reducing the risk of tangling and simplifying winding the cable up for storage.

## 1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.
