D-Link

¹Maximum wireless signal rate derived from IEEE Standard 802.11. Actual data throughput will vary. Network conditions overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link Wireless N devices.

²Computer must adhere to Microsoft's recommended System Requirements

³Using USB 1.1 port will affect device performance. USB 2.0 port recommended.

D-Link Corporation declares that this wireless LAN device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Product specifications, size and shape are subject to change without notice. D-Link is a registered trademark of D-Link Corporation/D-Link Systems, Inc. All other trademarks are the property of their respective manufacturers. ©Copyright 2013. All rights reserved.

The benefits of Wireless N 150

Wireless N 150 technology offers more speed, extended coverage and virtually no dead spots than the previous Wireless G standard. This adapter transfers data at speeds of up to 150 Mbps. With touch of a button security built-in, you are safe to shop and bank online, anywhere in your home.

What this product does

The D-Link Wireless N 150 Micro USB Adapter features Wireless N technology to provide a better wireless signal for your network, with speeds of up to 3 times faster than the previous generation Wireless G.
