

ThinkSmart View

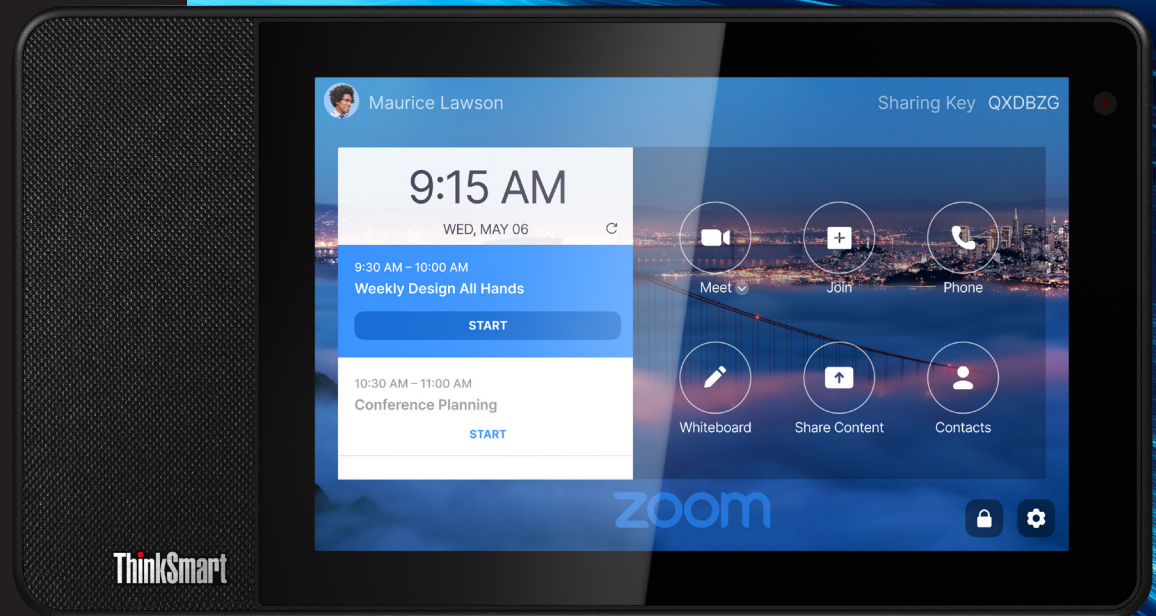

ZOOM FOR HOME DEVICE

ThinkSmart View allows organizations to set their remote and home-based workers up for success by giving them a device that maximizes the UC platform their employees already know and use. As a fully dedicated Zoom display, ThinkSmart View acts as an administrative companion to the PC so that users can be fully productive and fully collaborative at the same time.

Featuring a touchscreen display, ThinkSmart View enables users to continue working on their PCs while this all-in-one dedicated Zoom device handles calendars, calls, and videoconferencing. It also enables content sharing and whiteboard annotation. For teams that are working from home as well as those who have returned to the office, ThinkSmart View is here to support all the ways in which they are now working by providing a smarter device that works better together with their PCs.

ThinkSmart View ZOOM FOR HOME DEVICE

IMPROVED PRODUCTIVITY

Whether used alone or with a PC, ThinkSmart View frees up the PC for more productive work. It's engineered for always-on use with an intuitive touchscreen interface and time-saving features, like one-touch Zoom meeting start. From home offices to phone booths and common areas at the office, employees will enjoy greater productivity and easier collaboration. IT professionals will stay more productive, too, thanks to the outstanding customer service that Lenovo's Premier Support—bundled with every ThinkSmart View device—and optional Smart Office Professional Services provide every step of the way.

EASIER COLLABORATION

As a purpose-built Zoom device, ThinkSmart View offers a friendly, familiar interface that enables richer, content-centric meetings and seamless collaboration regardless of where team members are located. The touchscreen display provides quick access to Zoom voice and video calls, calendars, content sharing, and whiteboard annotation without interrupting work-in-progress on the PC. It's powerful built-in mics and speakers ensure clear audio in private settings, while optional ThinkPad X1 Active Noise Cancellation Headphones provide a rich, personal audio experience in public settings (or noisy households).

VALUABLE INNOVATION

ThinkSmart View was built for the reality of today's dispersed teams by enabling better collaboration from a variety of workspaces, including the home office. Its user-friendly design blends into any office or home environment. Users can move between landscape and portrait mode, depending on the need, and sync the device with their personal calendar, status, meeting settings, and phone for a truly personalized, video-first experience.

BUILT-IN SECURITY

With a built-in camera shutter, microphone mute button, and six-digit secure sign-in, ThinkSmart View offers security and privacy whether in use or at rest.

Lenovo

fully dedicated

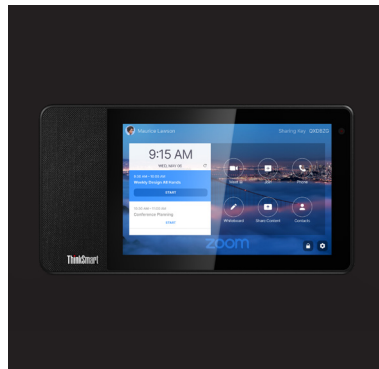

Users can easily access their calendar, join video meetings and calls, share content, and mark it up with whiteboard annotation on this all-in-one Zoom display.

fully productive

The touchscreen display is engineered for an always-on experience that allows workers to remain focused on bigger tasks on their PC.

fully secure

A six-digit PIN sign-in, mute button, and built-in camera shutter ensure users can work privately and securely whether at or away from the device.

warranty

1-year Lenovo Premier Support

bundled services

ThinkSmart View comes bundled with Lenovo's award-winning, personalized 1-year Premier Support warranty to help you make the most of your ThinkSmart technology investment. You'll receive advanced technical support available 24/7/365. Premier Support service for ThinkSmart View comes with Depot Service in lieu of Onsite Service. It is not eligible for parts and labor prioritization for work requests or for the Lenovo Service Connect portal. Premier Support is not available as a bundled service in all markets.

optional services

Lenovo's Smart Office Professional Services offer personalized, end-to-end support to help you make the most of your ThinkSmart technology investment.

ASSESS

Lenovo is here to help identify any issues that could sidetrack your deployment by providing a detailed assessment of potential red flags and a follow-up report.

DEPLOY

From virtual deployment installation to integration assistance, Lenovo ensures your ThinkSmart devices function optimally in your office environment.

MAINTAIN

Our easy-to-follow do's and don'ts, remote check-ins, and assistance with ongoing security patches and updates take the stress out of updates and device changes.

TRAIN

Lenovo helps instruct all your audiences—IT and AV support teams, end users, and executives—on how to fully take advantage of your new technology.

ONSITE

Lenovo provides white glove treatment through a dedicated, on-site specialist who can complete physical set up, installation, configuration, and device troubleshooting.

accessories

LENOVO THINKPAD X1 ACTIVE NOISE CANCELLATION HEADPHONES PN: 4XD0U47635

These lightweight and stylish headphones provide professional conferencing sound quality with ANC/ENC settings. Connect or charge via USB Type-C or Bluetooth® 5.0.
