*****Runtime and coverage are based on internal Philips tracking methods.
*******Tested using the Philips-developed coarse dirt cleaning test based on IEC60312-1. Jan 2018. One stroke is backwards and forwards.

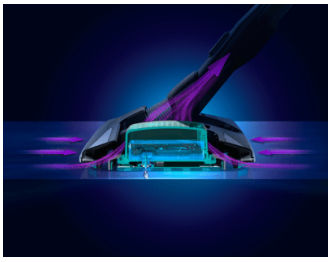

Highlights

Unique Aqua nozzle

Specially designed Aqua nozzle vacuums and wet wipes to remove dust, dirt and sticky stains —in any direction.

Clean with double the suction

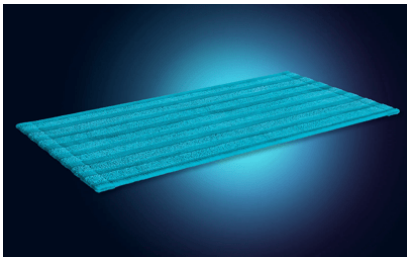

The nozzle flexes to smartly auto-adjust the suction to where it's needed to boost performance, using the dual suction channels - one at the front, one at the back. Both suction channels feature a zig-zag design and unique, patented water distribution to maximise performance.

Remove up to 99% of bacteria*

Simply add your favourite floor cleaner or a suitable detergent to remove up to 99% of bacteria* from the hard floors in your home.

Microfibre Cloth

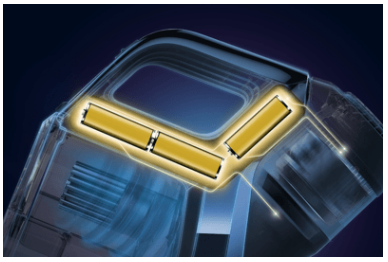

The microfibre material loosens, lifts and absorbs dust and dirt. 2 cloths included.

Longest-lasting Turbo mode

The newest-generation lithium-ion batteries provide the longest MAX** performance runtime of any cordless vacuum, so you can clean more than 125 m² in Turbo mode on just one charge.

Up to 80 min run time***

Experience up to 80 minutes*** of powerful cleaning with lithium-ion 25.2 V battery.

Vacuum dirt from all sides

The 360° suction nozzle features patented suction technology to capture dust and dirt from all sides of the nozzle, making all of your movements count.

Capture up to 99.7% of dirt****

The 360° suction nozzle captures up to 99.7% of dust and dirt in each stroke****.

LED lights

The nozzle features LED lights to illuminate the floor in front of you as you vacuum, highlighting hard-to-detect or previously hidden dirt. This makes dust, fluff, hair and crumbs easy to spot, even under furniture or anywhere you need extra light.

Specifications

Nozzles and accessories

Standard nozzle: Vacuum and wet wipe nozzle
Accessories included: Extra filter, Long crevice tool, Extension hose, Soft Brush Tool
Additional nozzle: 360° suction nozzle, Mini turbo brush

Performance

Battery type: Li-Ion
Sound power level: 84 dB
Charging time: 4–5 hour(s)
Runtime: up to 80 minute(s)
Airflow (max): 1100 l/min
Battery voltage: 25 V

Filtration

Filter system: Triple filtration system
Dust capacity: 0.6 l

Design

Colour: Black Titanium
