

Eyebloc Magnetic Webcam Cover for MacBook

The world's thinnest webcam cover designed exclusively for MacBook.

K64750WW

Product Description

The patented Eyebloc Magnetic Webcam Cover for MacBook is the thinnest webcam cover on the market, allowing your MacBook and MacBook Pro to close completely while attached. It attaches using the laptop's built-in magnets, so there's no gunky residue from tape or stickers. To use, simply place the cover over your camera and slide to expose your webcam. Sleek, matte coated high carbon steel is designed to complement the MacBook aesthetic. Eliminates the risk of the screen cracking or trackpad damage caused by bulky plastic webcam covers. Designed specifically for MacBook, but also works with any magnetic laptop screen.

Features

- Patented, sleek, Scandinavian engineering, made with powder coated high carbon steel blends in seamlessly to complement the MacBook and MacBook Pro aesthetic.
- Feel confidently protected whether at home or in the office, knowing that no one is watching you through your webcam.
- Control is at your fingertips — simply slide with your finger to open or close.
- Super-thin high carbon steel allows Eyebloc to remain attached to the laptop's internal magnets while closed.
- Magnetically attaches and removes easily, leaving no gunky residue behind.
