

HP PageWide Managed Color E75160dn printer

The new printing paradigm

HP Managed MFPs and printers are optimised for managed environments. Offering increased monthly page volumes and fewer interventions, this portfolio of products can help reduce printing and copying costs. See your HP Authorised Reseller for details.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

Affordable colour printing for every office

- Depend on lasting value. Get the results you expect for a game-changing low cost per colour page.
- Print more pages and replace cartridges less often with optional high-yield cartridges.¹
- Print even faster – and save even more per page – by setting this printer to General Office mode.²
- Help keep energy costs down with the most efficient printer in its class.³

Minimal interruptions. Maximum uptime.

- Minimise interruptions with an HP PageWide Managed printer designed for the least maintenance in its class.⁴
- Print speeds up to 50% faster than competitors – as fast as 80 ppm in colour and black-and-white.⁵
- Tailor this printer to the needs of your business with a wide range of paper-handling accessories.
- Grab pages and go – without waiting. This device wakes up and prints fast, so your documents are ready quickly.

The world's most secure printing⁶

- Each printer in your fleet checks its operating code and repairs itself from attacks.
- Your printer's outgoing network connections are inspected to stop suspicious requests and thwart malware.
- Memory activity is monitored to continually detect and stop attacks.
- Firmware is automatically checked during startup to determine if it's authentic code – digitally signed by HP.

Footnotes

¹ High-yield cartridges are not included in printer purchase; purchase separately. Comparison is based on ISO 24711 cartridge yields for HP 982X series High-Yield Original PageWide Cartridges compared with HP 982A series Original PageWide Cartridges.

Learn more at <http://www.hp.com/go/learnaboutsupplies>.

² Comparison based on printing in Professional Mode.

³ Energy claim based on TEC data reported on energystar.gov as of February 2018. Data normalised to determine energy efficiency of in-class colour laser printers and MFPs with print speeds between 20–80 ppm as of February 2018. Subject to device settings. Actual results may vary.

⁴ Fewer service parts claim based on BU analysis of leading in-class A3 MFPs as of August 2016; calculations use publicly available and published manufacturer rated yields for long-life consumables and assume 600,000 pages printed (using a 60% black/40% colour ratio). Learn more at <http://www.hp.com/go/pagewidetaims>.

⁵ Comparison of HP PageWide A3 devices with the majority of in-class colour ink/laser MFPs (€2,820–€7,049), and colour ink/laser single function printers (€1,410–€2,819) as of April 2017; market share as reported by IDC as of Q4 2016, excluding other HP PageWide products. HP PageWide speeds based on General Office mode and exclude first page. Learn more at <http://www.hp.com/go/printerspeeds>.

⁶ Based on HP review of 2018 published security features of competitive in-class printers. Only HP offers a combination of security features that can monitor to detect and automatically stop an attack then self-validates software integrity in a reboot. For a list of printers, visit <http://www.hp.com/go/PrintersThatProtect>. For more information: <http://www.hp.com/go/printersecurityclaims>.

Technical specifications disclaimers

¹ As fast as 7.5 seconds.

² Upgradeable to 2560 MB with optional DIMM

³ Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. Energy Star value typically based on measurement of 115V device.

⁴ Normalized TEC (watt hours per page) Blue Angel: 0.150 Wh/page, Energy Star: 0.148 Wh/page.
