Product description

An iF Award winning design, ViewSonic's M1 + is an ultra-portable LED projector that delivers practical entertainment in any environment. Featuring a built-in battery and operating life of over 30,000 hours, this projector will deliver years and years of exceptional multimedia entertainment, wherever you take it. Weighing less than 1kg, the M1 + 's compact and lightweight design is ideal for transporting it from room to room and for use both indoors and out. The smart projector holder offers an easy 360 degree setup, while also serving as a lens cap. Once the lens is discovered, the projector automatically turns on with maximum brightness for instant entertainment. Harman Kardon Bluetooth stereo speakers deliver immersive sound for an immersive experience, while flexible audio connections can be made via Bluetooth. Built-in Wi-Fi connectivity makes streaming easier than ever - both wireless connection from smart devices and streaming of integrated content are possible.
