Highlights

Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby for more comfort.

Significantly reduces fussing

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant feeding bottle design affects "infant behaviour". The Philips AVENT Classic baby feeding bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, $p=0.05$). This was especially true during night-time.**

Unique anti-colic valve

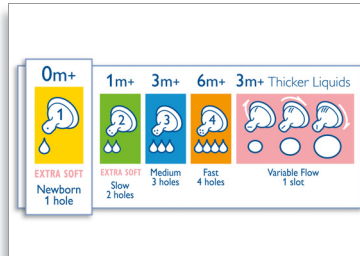

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.

BPA free*

This nipple is made from silicone - a BPA-free* material

Fit your baby's growing needs

The Philips AVENT Classic bottle offers different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All nipples are available in twin packs.

Compatible with Classic bottle

We advise to use the Classic nipple with Classic feeding bottles only.
