Good feeding, good sleeping

Helps settle your baby, especially at night**

With the Philips AVENT Classic teat, your baby controls milk flow, which can help reduce overeating and spit-up. The unique skirt flexes to allow air into the bottle and promotes healthy, active feeding and reduces fussing** and colic.***

Other benefits

- Compatible range from breastfeeding to cup
- Different teat flow rates available
- This teat is BPA free

Clinically proven to reduce colic and discomfort*

- Anti-colic valve proven to reduce colic*
- 60% less fussing at night*
- Teat shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding

Highlights

Less colic

Our anti-colic valve is designed to keep air away from your baby's tummy to reduce colic and discomfort. As your baby feeds, the valve integrated into the teat flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce colic and discomfort.

Helps settle your baby

Philips Avent Anti-colic bottle reduces fussing. Babies fed with Philips Avent Anti-colic bottles experienced 60% less fussing at night than babies fed with a competitor's anti-colic bottle.*

Uninterrupted feeding

The teat shape allows a secure latch and the ribbed texture helps prevent teat collapse for uninterrupted, comfortable feeding.

Secure latch

Teat shape designed for secure latch

Fits your baby's growing needs

The Philips Avent Anti-colic bottle range offers different teat flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All teats are available in twin packs: Newborn, Slow, Medium, Fast and Variable Flow, and Thick feed.

BPA free

Philips Avent Anti-colic teat is made of BPA free material (silicone).

Growing up with your baby

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!
