The maximum capacity of the battery will decrease with time and use.

³ On 120 Hz SKU only.

⁴ Not all configurations will allow for these I/O ports.

⁵ AMD + UMA only.

⁶ The actual transfer speed of the USB 3.2 Gen 1 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, will be slower than a speed of 5 Gbit/s.
